

PHARMACEUTICAL BENEFITS

DECEMBER 1981

NOT FOR SALE

PHARMACEUTICAL BENEFITS

Explanatory Circular regarding the December 1981 edition of the Schedule of Pharmaceutical Benefits for Approved Chemists.

The reprint of the Schedule will take effect on 1 December 1981 and all previous editions of the Schedule are cancelled.

Your attention is drawn to the following:—

The patient contribution has been increased to \$3.20 effective 1 December 1981.

After discussion with the Pharmacy Guild of Australia, publication of pricing information regarding extemporaneously prepared benefits has now reverted to the previous arrangements whereby this information is included in each four-monthly reprint of the Schedule of Pharmaceutical Benefits for Approved Chemists. The Extemporaneously Prepared Benefits booklet will no longer be printed as a separate publication.

Three extemporaneously prepared items have been added to the list of pharmaceutical benefits which may be prescribed by participating dental practitioners for dental treatment only. While quantities less than the maximum may be prescribed, it should be noted that other variations to the listed formulae cannot be prescribed by dentists as pharmaceutical benefits.

SUMMARY OF CHANGES

ADDITIONS

NEW ITEMS

Section 2 — Restricted Benefits

Bromocriptine Mesylate, 2.5mg tablet and 10mg capsule (*Parlodel*)

Codeine Phosphate with Paracetamol, 8mg-500mg tablet (*Codalgin, Dymadon Co., Panamax Co.*)

Mianserin Hydrochloride, 10mg tablet (*Tolvon*)

Tri-potassium Di-citrate Bismuthate Complex, 120mg per 5ml, 560ml mixture (*De-Nol*)

Section 2 — Unrestricted Benefits

Dipivefrin Hydrochloride, 0.1%, 10ml eye drops (*Propine*)

Gliclazide, 80mg tablet (*Diamicron*)

Hypromellose with Dextran, 0.3%-0.1%, 15ml eye drops (*Tears Naturale*)

Section 2 — Preparations which may be prescribed by participating dental practitioners for dental treatment only

Ready Prepared Benefits

Paracetamol, 120mg per 5ml, 100ml mixture (*Dymadon, Panamax, Parmol*)

Extemporaneously Prepared Benefits

Aspirin mixture, APF

Aspirin mixture for children, APF

Aspirin with Codeine mixture (Aspirin mixture, APF with Codeine Phosphate 30mg per 10ml)

NEW FORMS AND STRENGTHS OF EXISTING ITEMS

Section 2 — Restricted Benefits

Sodium Valproate, 500mg (enteric coated) tablet (*Epilim EC*); 200mg per 5ml, 200ml syrup (*Epilim*)
Trimipramine, 50mg capsule (*Surmontil*)

Section 2 — Unrestricted Benefits

Hypromellose, 1% eye drops, 15ml (*Methopt Forte*)

Isoprenaline Hydrochloride, 1 in 5 000, 1ml and 1 in 5 000, 5ml injections (*Isuprel*)

Levonorgestrel with Ethinyloestradiol, pack containing 6 tablets 50 micrograms-30 micrograms, 5 tablets 75 micrograms-40 micrograms and 10 tablets 125 micrograms-30 micrograms (*Triphasil, Triquilar*); pack containing 6 tablets 50 micrograms-30 micrograms, 5 tablets 75 micrograms-40 micrograms, 10 tablets 125 micrograms-30 micrograms and 7 inert tablets (*Triphasil 28, Triquilar ED*)

Miconazole Nitrate, 100mg pessary, pack of 7 (*Gyno-Daktarin 7, Monistat 7*)

Sulphamethizole, 1g tablet (*Urolucosil*)

ADDITIONAL BRANDS OF EXISTING ITEMS

Section 2 — Restricted Benefits

Metoclopramide Hydrochloride, 10mg tablet (*Maxolon*)

Section 2 — Unrestricted Benefits

Senega and Ammonia, 200ml mixture APF (*FA brand*)

DIFFERENTIAL QUANTITY LISTING

Section 2 — Unrestricted

Item	Maximum Number of Quantity Repeats
Metoclopramide Hydrochloride , 10mg tablet (<i>Maxolon, Metamide, Primperan</i>)	10 NIL

DELETION OF FULL ITEMS

Section 2 — Unrestricted Benefits

Pentolinium Tartrate, 5mg per ml, 10ml injection (*Ansolyse*) (Item discontinued by manufacturer)

Pituitary Posterior Lobe, 30 antidiuretic unit capsule, insufflation (*Di-Sipidin*) (Item discontinued by manufacturer)

DELETION OF FORMS AND STRENGTHS OF EXISTING ITEMS

Section 2 — Restricted Benefits

Phenethicillin, 125mg capsule (*Pensig*) (Item discontinued by manufacturer)

Section 2 — Unrestricted Benefits

Neostigmine, 3%, 7.5ml eye drops (*Prostigmin*) (Item discontinued by manufacturer)

Phenethicillin, 125mg capsule (*Pensig*) (Item discontinued by manufacturer)

Pilocarpine Hydrochloride with Adrenaline, 1%–0.5%, 3%–0.5% and 6%–0.5%, 15ml eye drops (*E-Carpine*) (Items discontinued by manufacturer)

Procaine Penicillin, 600mg Injection BP (*Aquacillin*) (Item discontinued by manufacturer)

Propylthiouracil, 25mg tablet (Item discontinued by manufacturer)

Section 2 — Preparations which may be prescribed by participating dental practitioners for dental treatment only

Phenethicillin, 125mg capsule (*Pensig*) (Item discontinued by manufacturer)

Procaine Penicillin, 600mg Injection BP (*Aquacillin*) (Item discontinued by manufacturer)

INTRODUCTION

These notes are designed for the use of approved chemists. They describe the procedures by doctors and dentists in prescribing benefits and the procedures by approved chemists in supplying benefits. They go on to outline the action on the part of approved chemists in coding prescriptions for processing by computer and the submission by them of claims for payment. Finally the notes explain the pricing arrangements in accordance with which approved chemists' claims are processed for payment.

THE SCHEDULE OF BENEFITS

1. Pharmaceutical benefits which may be prescribed by doctors are listed in this book. The schedule also includes a list of pharmaceutical benefits which may be prescribed by participating dental practitioners for dental treatment only. These items are listed in section 2 after the Intravenous Infusions for Injection.

2. Ready prepared items are listed in sections 2 and 3 of the Schedule and each form and strength is identified by a unique five-character code. (See also paragraph 109). Restrictions apply to the prescribing of certain items in section 2 and all of the items in section 3. Further details may be found in these notes — paragraphs 16 (d) and 20.

3. The Schedule of ready prepared items includes the form, manner of administration and brand of these items which may be prescribed. Where the words 'solvent required' are included after the form, the item and a solvent may be prescribed as one benefit. In such cases, any determined brand of solvent may be ordered with the item. For clarity, such benefits should be written as one prescription, e.g., 'Benzylpenicillin Injection, 300mg amp with 2ml water for injections'.

4. The Schedule also shows the maximum quantity and the number of repeats allowable for each item. Further details may be found in these notes — paragraphs 21-29.

5. The drugs which may be used in extemporaneous preparations are listed in section 4 — Drug Tariff (Green Pages). Where a restriction applies to the use of a drug listed in this section it is indicated against the item. The following are also included in section 4:—

- (i) container prices;
- (ii) a list of Standard Formulae preparations and prices (see paragraph 100); and
- (iii) table of codes, maximum quantities and number of repeats for extemporaneously prepared benefits.

6. The following admixtures are not pharmaceutical benefits:—

- (a) the admixture of two or more ready prepared items listed in the Schedule of Benefits; or
- (b) the admixture of a ready prepared item and a drug or drugs listed in section 4 of the Schedule of Benefits; or
- (c) the admixture of two or more items which may be prescribed by participating dental practitioners for dental treatment only.

7. Formulae in common use are listed in section 5 — Prescribers' List (Green Pages).

8. Container prices, fees, standard packs and prices for ready prepared preparations are listed in section 6 (Blue Pages).

9. A proprietary name index of ready prepared items is published in a separate booklet.

10. Also published in the booklet is a code index of ready prepared and extemporaneously prepared pharmaceutical benefits.

11. Symbols used in the Schedule of Benefits are explained on page 1, section 2 (White Pages).

12. Price changes and other amendments are advised each month so that the information in the Schedule may be updated regularly.

13. To facilitate coding, a separate list of the more frequently used N.H.S. items and relevant codes for ready reference is provided with each reprint of the Schedule.

CONDITIONS UNDER WHICH BENEFITS MAY BE PRESCRIBED AND DISPENSED

14. CARE MUST BE TAKEN TO COMPLY WITH THE PROVISIONS OF STATE LAW, PARTICULARLY IN REGARD TO DRUGS LISTED AS NARCOTIC, SPECIFIED OR RESTRICTED UNDER STATE LEGISLATION.

A. PRESCRIBING OF BENEFITS — PROCEDURE BY DOCTORS AND DENTISTS

Prescriptions

15. A prescription ordering a pharmaceutical benefit may be written only for the medical or dental treatment of the person named on the prescription and requiring treatment with that pharmaceutical benefit. A prescription must not be written for any other purpose and is valid only when it is written by a registered medical practitioner or a participating dental practitioner.

16. Medical practitioners and dental practitioners are required by legislation under the National Health Act to observe the following rules when writing prescriptions for pharmaceutical benefits:—

(a) Write the prescription in indelible form, i.e., ink or ball point pen in own handwriting (or with the approval of the Director-General otherwise record the prescription) either on the standard prescription form supplied by the Department or on paper as near as convenient to 18 cm × 12 cm. The standard prescription forms supplied by the Department to participating dentists have a blue margin to distinguish them from the forms supplied to medical practitioners. The name and address of the medical practitioner or dental practitioner must be shown and 'N.H.S.' endorsed at the top. Each dentist is also required to endorse each prescription with the D.P. number in the appropriate space. Doctors who have obtained the approval to record prescriptions in other than their own handwriting will endorse the prescriptions 'Regulation 19 (1) (a) approval obtained'.

(b) Write the prescription in duplicate marking the duplicate copy with the word 'Duplicate'. This is pre-printed on the standard prescription forms.

(c) Set out the name and address of the patient, and where the patient—

(i) is a pensioner who holds a valid Pensioner Health Benefits Card—write the pension number on the prescription;

(ii) is a sickness benefit recipient who holds a valid Health Benefits Card—write the sickness benefit number on the prescription.

NOTE: Persons who are issued with a Health Care Card are NOT entitled to pharmaceutical benefits free of charge.

EXCEPT WHERE THE PROVISIONS OF STATE LAW REGARDING NARCOTIC, SPECIFIED OR RESTRICTED DRUGS REQUIRE THE ADDRESS TO BE WRITTEN, it is not necessary to write the address of the pensioner or sickness beneficiary on the prescription form.

(d) In the case of pharmaceutical benefits which are restricted in use, the prescription must be endorsed in the doctor's own handwriting with the words 'Specified Purpose'. Abbreviations such as 'Spec. Purp.'

or 'S.P.' will be accepted. However, where a prescription is written for a pensioner for a drug which is restricted to pensioners it is not necessary to endorse the prescription 'Specified Purpose'.

(e) Where the words 'solvent required', are included after the form of a benefit, the doctor or dentist must specify the volume and number of ampoules of solvent to be supplied (see paragraph 133).

(f) The pharmaceutical benefit must be identified in the prescription by such particulars as are necessary for the complete identification of that benefit.

(g) If the benefit is a single drug, the manner of administration must be indicated.

(h) When directing that the maximum quantity and repeats of a pharmaceutical benefit be supplied at the one time, the prescription must be endorsed in the doctor's own handwriting with the words 'Regulation 24'. Further details are available in paragraphs 29 and 56.

(i) Date and sign the prescription.

17. Prescriptions for pharmaceutical benefits for more than one person may not be written on the one prescription form.

18. A prescription is not a valid pharmaceutical benefit prescription if—

(a) the medical practitioner prescribes a pharmaceutical benefit for a person in respect of whom another prescription for the same benefit has been written on the same day by the same medical practitioner;

(b) the medical practitioner prescribes on the one form a benefit that is a drug of addiction and another benefit and directs that the supply of either benefit is to be repeated. If no repeats of either item are ordered, the prescription may be accepted;

(c) the medical practitioner prescribes a narcotic drug for the medical practitioner writing the prescription;

(d) the dental practitioner prescribes a pharmaceutical benefit for a person in respect of whom another prescription for the same benefit has been written on the same day by the same dental practitioner.

Manner of Administration

19. Where a particular manner of administration is indicated in the Schedule of Benefits, the item may not be supplied as a pharmaceutical benefit for administration in any other way, e.g. an ophthalmic preparation prescribed for topical use.

Restrictions

20. Certain pharmaceutical benefits may only be prescribed for a particular class of person, for a specified purpose, disease or condition and, where specified with the written authority of the Commonwealth Director of Health in the State concerned. Particulars of these drugs and the relevant restriction endorsements which are required on prescriptions are printed in red in the Schedule. It is not necessary for the particular restriction to be identified on the prescription. Items available for use for Colostomy and Ileostomy conditions as well as items available for use by Paraplegic and Quadriplegic patients are listed in section 3 of the Schedule. Where in section 2 a prescription is required to be endorsed with a pension number, a pensioner for these purposes shall include:—

- (i) a pensioner who holds a valid Pensioner Health Benefits Card;
- (ii) a sickness benefit recipient who holds a valid Health Benefits Card.

NOTE: Persons who are issued with a Health Care Card are NOT included in the 'pensioner' category.

Maximum Quantities and Repeats

21. For ready prepared preparations, the allowable maximum quantity and number of repeats are shown in the third and fourth columns of sections 2 and 3. For other preparations, details are set out in the Table of Maximum Quantities and Repeats (Green Pages).

22. The maximum quantity of an item marked with a double dagger (‡) has been determined as a single pack. As explained on page 1, section 2 (White Pages), irrespective of the quantity prescribed, the standard pack must be supplied.

23. For other items, it is not necessary to prescribe the maximum quantity if the medical or dental practitioner considers a lesser quantity is sufficient for the patient's needs.

24. If a medical practitioner requires a prescription to be repeated he must show the quantity to be supplied and the number of repeats. It is not necessary for the maximum quantity to be ordered before the supply can be repeated. Repeats may be for any quantity up to the maximum, irrespective of whether the original supply is for an equal, greater or lesser quantity.

25. The relevant maximum quantity and number of repeats are not to be exceeded, unless the prescription is accompanied by a written authority (see paragraphs 26, 27).

Authority to Prescribe

26. Where a person is suffering from a chronic complaint a medical practitioner may, with the written authority of the Commonwealth Director of Health, direct the supply of a quantity of a pharmaceutical benefit greater than the maximum quantity which would otherwise be allowed.

27. In circumstances where it is desirable that the patient be not obliged to re-visit his doctor in order to secure repeat supplies, the doctor may, with the written authority of the Commonwealth Director of Health, direct that the supply of a pharmaceutical benefit be repeated more times than the number of repeats specified in the Schedule.

28.—

(a) The written authority of the Director of Health to prescribe:—

- (i) restricted drugs (paragraph 20); or
- (ii) increased maximum quantities (paragraph 26); and/or
- (iii) increased number of repeats (paragraph 27),

will be forwarded to the doctor on an Authority to Prescribe (Form PB15) or to the Doctor or the patient on an Authority Prescription (Form PB86).

(b) When the authority is given on form PB15 the doctor will write the prescription in the space provided on the form for this purpose.

Regulation 24

29. Generally, a pharmaceutical benefit may not be supplied to the same person more than once on any one day. However, a doctor may direct that the original supply and repeat supplies of a benefit ordered in a prescription be supplied at the one time, provided he is satisfied that:—

- (a) the maximum quantity specified for the benefit prescribed is insufficient for the medical treatment of the person for whom the prescription is written;
- (b) that person is suffering from a chronic illness or is resident in a place remote from the nearest approved chemist or approved medical practitioner; and
- (c) that person, without great hardship, could not obtain the pharmaceutical benefit on separate occasions.

The doctor must endorse the prescription 'Regulation 24', as certification that the above conditions have been satisfied.

Urgent Cases

30. In cases of urgency, a doctor or dentist may communicate a prescription to an approved chemist by telephone or other means. In such cases the doctor or dentist must reduce the prescription to writing and forward it within 24 hours of such communication to the approved chemist who made the supply. For further details see paragraph 62.

31. The provision for communication of prescriptions in urgent cases applies also to those drugs for which the written authority of the Commonwealth Director of Health is necessary for supply as a pharmaceutical benefit (see paragraph 20). In such cases, the doctor must first obtain advice from the Director in the particular State, by telephone or other means, that the authority will be issued and notify the approved chemist accordingly when communicating the prescriptions. The doctor must subsequently obtain the written authority, write the prescription in the space provided and forward the completed form within 24 hours of its receipt to the approved chemist who supplied the benefit.

Emergency Drug (Doctor's Bag) Supplies

32. Certain pharmaceutical benefits are provided free to doctors for emergency use. These emergency supplies are not available to ships' doctors. The patient is not required to make any payment when benefits are made available to him from these supplies.

33. Supplies of these drugs may be obtained from an approved chemist upon the production of an official Emergency Drug (Doctor's Bag) Order Form (Form PB7) in duplicate, signed by the doctor personally. Doctors approved to supply pharmaceutical benefits under section 92 of the National Health Act are to use Form PB7A which must not be presented to an approved chemist for their supplies. Special instructions are issued to these doctors.

B. SUPPLY OF BENEFITS — PROCEDURE BY APPROVED CHEMISTS

Prescriptions

34. An approved chemist is authorised to supply a pharmaceutical benefit only upon the surrender of:—

- (a) a valid prescription, dated within six months before the date of its presentation; or
- (b) a benefit ordered on an Authority Prescription (Form PB86) or an Authority to Prescribe (Form PB15) which has been dated by the prescribing medical practitioner within six months before the date of its presentation; or

- (c) a repeat authorisation presented with a duplicate prescription within six months of the date of the prescription.

35. A pharmaceutical benefit may not be supplied to the same person more than once on any one day, except where a prescription is endorsed 'Regulation 24' (see paragraph 56).

36. The National Health Act requires that a prescription must be written by a registered medical practitioner or a participating dental practitioner. In the event that the chemist cannot recognise the doctor's or dentist's signature he should take all reasonable steps to satisfy himself that the prescription was written by a registered medical practitioner or a participating dental practitioner.

37. Prescriptions for items deleted from the Schedule of Benefits may not be dispensed as benefits as from the date of effect of deletion.

38. Where restrictions are removed or applied with regard to the prescribing of a benefit, valid prescriptions written before the date of effect of the restriction changes may still be dispensed as benefits.

39. Where the maximum quantity and/or number of repeats of an item are altered, the quantities and repeats which have been prescribed on valid prescriptions written before the date of effect of the alterations may be dispensed.

40. Before a benefit is supplied on presentation of a prescription the approved chemist is required to:—

- (i) mark his name and approval number on the prescription form and duplicate;
- (ii) allot a number which will identify the prescription and write that number on the form and duplicate; and
- (iii) if more than one prescription has been written on the one form allot a separate number to each prescription.

41. Prescription forms on which are prescribed both pharmaceutical benefit items and non-pharmaceutical benefit items may be accepted. The non-benefit items will be supplied as private prescriptions and cancelled from the form.

42. A benefit shall not be supplied a number of times greater than the number specified in the prescription.

43. Where a brand of a benefit item is specified by the prescriber, the chemist is required to supply that brand. The only exceptions to this are:—

- (a) where prior to supply the prescriber has given prior approval for supply of a listed brand different from that specified in the prescription; or

(b) the approved chemist supplying the benefit can satisfy the Commonwealth Director of Health in his State that —

- (i) the chemist was unable, after a conscientious attempt, to contact the prescriber to obtain his approval to supply an alternative listed brand; and
- (ii) the supply of the benefit was required as a matter of urgency.

An appropriate certification setting out the relevant facts is to be made on such prescriptions by the chemist.

Deferred Supply

44. When a patient presents a prescription form, in duplicate, ordering more than one benefit item, and does not require the supply of one or more of the benefit items at the same time as other benefit items prescribed on the form, a separate repeat authorisation for each deferred item must be prepared in duplicate and the words 'Original Supply Deferred' must be stamped across the relevant item on the original and duplicate of the prescription form. The duplicate must be stamped in such a manner as to not render the duplicate illegible. DEFERRED ITEMS MUST NOT BE CODED ON THE ORIGINAL PRESCRIPTION FORM.

45. The repeat authorisation, Form PB13, when it is used for a deferred supply of an original prescription item, is to be prepared and issued in the same manner as is required for the normal authorisation of repeats except that:—

- (i) '0' is to be inserted in the space for 'No. of times already dispensed';
- (ii) if no repeats are ordered, '0' is to be inserted in the space for 'No. of Repeats Authorised'.

46. The supply of a benefit on a repeat authorisation form which has been prepared for deferred supply is to be regarded as the first occasion of supply. If repeats have been directed the normal procedure in regard to repeat authorisations will apply at the time of first supply. (See paragraph 122 regarding the coding of the repeat authorisation form which has been prepared for deferred supply, when the deferred supply has been made.)

Repeat Authorisations

47. Where repeats are allowable a benefit may be supplied on a repeat authorisation only when it is presented with a duplicate prescription to which it is duly related and it is indicated that the pharmaceutical benefit to be supplied has not already been supplied the number of times directed in the prescription.

48. Repeat prescriptions for items deleted from the Schedule of Benefits may not be dispensed as benefits as from the date of effect of deletion.

49. However, where changes to restrictions, maximum quantities and/or number of repeats occur (as for original prescriptions, paragraphs 38, 39), repeat authorisations which relate to valid prescriptions written before the date of effect of the alterations, may be dispensed as benefits.

50. When a benefit is supplied on presentation of a repeat authorisation, the approved chemist shall mark his name and approval number in the space provided on the repeat authorisation.

51. Before a benefit is supplied on presentation of a prescription which contains a direction to repeat the supply (when repeats are allowable) or on a repeat authorisation requiring further allowable repeats the approved chemist shall prepare a repeat authorisation form in duplicate, except when supply under the provisions of Regulation 24 is authorised (see paragraph 56).

The repeat authorisation form shall show:—

- (i) the number of times the benefit has been directed to be repeated and the number of times supply has been made;
- (ii) on the first occasion of supply of the benefit, his approval number, together with the identifying number allotted by him to the prescription and the date of the original prescription;
- (iii) on subsequent occasions of supply the approval number and the prescription identifying number relating to the original supply and the date of the original prescription;
- (iv) if the prescription or repeat authorisation is for a pensioner, the pension number appearing on the prescription;
- (v) in the case of repeats on an Authority Prescription (Form PB86) or an Authority to Prescribe (Form PB15), the authority number should be endorsed on the repeat authorisation (Form PB13) in the space provided.

52. At the time of supply of the benefit the completed repeat authorisation together with duplicate of the prescription is to be issued to the person to whom the benefit is supplied.

53. Separate repeat authorisations are to be prepared in respect of an injectable benefit which requires a solvent, and the solvent when a solvent is prescribed. The procedure to be followed in endorsing prescriptions and repeat forms is covered in 'CODING AND SUBMISSION OF PRESCRIPTIONS—PROCEDURE BY APPROVED CHEMISTS'.

Procedure when an Authority is presented

54. When a benefit is ordered on an Authority Prescription (Form PB86) or an Authority to Prescribe (Form PB15) the doctor will have written the prescription on the original (white) and duplicate copies of the authority form. The approved chemist will:—

- (a) enter in the designated places on the Authority form the information listed in paragraphs 116–121 except that the quantity (Q) and the number of repeats (R) should not exceed the quantity and number of repeats authorised.
- (b) where a solvent has been prescribed for an injectible a diagonal line should be drawn through the pre-printed coding box on the Form PB86 or Form PB15 and two code stamp imprints placed on the back of the form. One coding box should be used for the injectible item and the other for the solvent.
- (c) obtain the signature of the patient or signature and address of the agent and date of supply.

55. Repeats, when ordered and allowable on an Authority Prescription (Form PB86) or an Authority to Prescribe (Form PB15), will be handled in the same manner as repeats for other N.H.S. prescriptions.

Regulation 24

56. Where a prescription is endorsed 'Regulation 24' (see paragraph 29), an approved chemist is authorised to supply the benefit and the repeats of that benefit at the one time. He should not complete a repeat authorisation form. An amount equivalent to one professional fee and where applicable, one dangerous drug fee is payable for the total supply. With regard to patient contribution for 'Regulation 24' supply, see paragraph 66.

Receipts

57. Upon the supply to a person of a benefit by an approved chemist, that person shall sign and date a receipt for that benefit on the prescription form or repeat authorisation, as the case may be. If the person taking delivery of the benefit is not the person for whose treatment the prescription was written, he shall in addition endorse the prescription form or repeat authorisation with his address. Not in any circumstances must a person give or an approved chemist demand a receipt until supply of the benefit has actually been made.

58. Where a benefit is supplied through the post, by rail, or other means of transport, and it is impracticable to obtain a receipt, the approved chemist must certify on the prescription or repeat

authorisation, as the case may be, that he has supplied the pharmaceutical benefit, the date on which the supply was made and particulars of the means of supply. Where a benefit is supplied prior to the presentation of a prescription (urgent cases see paragraphs 30, 31 and 62) or to a person who cannot read or write, or who is unable to write, the approved chemist should sign and date a statement on the prescription or repeat authorisation, certifying that he has supplied the benefit and indicating the circumstances of supply.

Emergency Drug (Doctor's Bag) Supplies

59. Certain pharmaceutical benefit items may be supplied to medical practitioners on receipt of an official Emergency Drug (Doctor's Bag) Order Form (Form PB7) in duplicate, signed by the doctor personally. These items are listed at the end of section 1 (Lemon Pages) of the Schedule. Each order form is valid during the month printed thereon and each doctor may obtain the benefits not more often than once per month. If the signature appearing on an Emergency Drug (Doctor's Bag) Order Form is that of a doctor unknown to the approved chemist the latter is required to obtain, from the person presenting the order, particulars of the full name and address and medical registration number of the doctor, and endorse these particulars on the back of the original copy of the order form.

60. The quantity of emergency drug items which may be supplied at the one time must not exceed those quantities specified in the list shown in section 1 (Lemon Pages).

61. A doctor may also specify on the order form a particular brand of a benefit. If it is not available, the doctor should be requested to specify in the order a permitted brand which is available, and to initial the alteration. On supply of the benefits ordered on the order form, a receipt for the benefits must be signed by either the doctor himself or by a person authorised by him.

Urgent Cases

62. A pharmaceutical benefit may be supplied by an approved chemist before the prescription for that benefit has been surrendered to him, where in cases of urgency, the doctor or dentist communicates the prescription to the approved chemist by telephone or other means. This provision does not apply to prescriptions for supply by approved chemists where the law of the State in which that approved chemist's premises are situated requires the prescription to be in writing. This provision also applies to drugs for which the written authority of the Commonwealth Director of Health is necessary for supply as pharmaceutical benefits.

C. CHARGES TO PATIENTS

Patient Contribution

63. An approved chemist may in respect of each supply by him whether on a prescription or repeat authorisation, charge the person to whom the pharmaceutical benefit is supplied an amount not exceeding \$3.20 in respect of general patients. A charge is not to be made for the supply of a pharmaceutical benefit on a prescription on which the prescribing medical or dental practitioner has written the pension number or a repeat authorisation on which is written the patient's pension number. Where a solvent may be prescribed as part of a benefit, only one prescribed charge may be made for each supply of the benefit.

64. The approval of a chemist is subject to the conditions that:—

- (a) he will not, by advertisement, notice or otherwise, state or indicate that he is willing to supply all or any pharmaceutical benefits to all or any persons (except pensioners) without charge or for a charge of less than \$3.20 to general patients for each supply;
- (b) he will clearly indicate in any statement made by advertisement, notice or otherwise, that any offer to supply drugs or medicinal preparations without charge or at a reduced charge does not apply to the supply of pharmaceutical benefits;
- (c) he will not follow a practice of supplying all or any pharmaceutical benefits to all or any persons (except pensioners) without charge or for a charge that is less than \$3.20 in respect of general patients;
- (d) he will not enter into an agreement or arrangement to pay rebates or refunds of the authorised prescription charges nor will he become a party to such agreements.

65. Where a doctor has obtained an authority from the Commonwealth Director of Health to prescribe a quantity greater than the normal maximum quantity (see paragraph 26) the authorised prescribed charges should be made for each supply of the increased maximum quantity.

66. Where a doctor has endorsed a prescription 'Regulation 24' (see paragraphs 29 and 56) the approved chemist should make the relevant prescribed charge for the original and the same charge for each repeat that would normally be needed to make up the total supplies. For example, if the prescription ordered two repeats, a charge of \$9.60 should be made to a general patient.

67. A prescription, other than a prescription for a pensioner, written for a benefit for which the dispensed price at the date of supply is equal to or less

than \$3.20 is not a prescription for a pharmaceutical benefit. This also applies to prescriptions endorsed 'Regulation 24' (see paragraphs 29 and 56), for which the price of the total quantity of the benefit supplied is less than the authorised charge specified in paragraph 66.

After Hours

68. A charge not exceeding \$2 may be made when an approved chemist is required to return to his approved premises in order to supply a pharmaceutical benefit or pharmaceutical benefits at a time outside normal trading hours. Only one \$2 charge may be made on the one occasion, irrespective of the number of benefits supplied. The charge is recoverable from the patient concerned and not from the Department.

Delivery

69. A charge equal to the cost of delivering may be made if supply by delivery is made at or to a place other than the approved chemist's pharmacy.

Responsibility

70. It is the patient's responsibility to meet any charge lawfully demanded and an approved chemist may refuse to supply a pharmaceutical benefit if payment of a charge is not made.

71. An approved chemist or a doctor is not entitled to demand or receive a payment (other than a payment from the Department) or other valuable consideration in respect of the supply of a pharmaceutical benefit except as set out herein.

D. MISCELLANEOUS

Premises

72. Approval to supply pharmaceutical benefits is granted to a chemist in respect of particular premises. Benefits may be supplied from these premises only.

Approved Doctors, Friendly Societies

73. Doctors approved to dispense pharmaceutical benefits should follow the procedures explained in these Notes unless otherwise indicated. Friendly Society Pharmacies should follow the procedures subject to additional instructions made available to them.

Standards

74. An approved chemist should not supply as a pharmaceutical benefit a substance that does not conform to the standards of composition or purity prescribed, or that has as an ingredient a substance that does not conform to those standards. The standards which are applicable to pharmaceutical benefits are:—

- (a) in the case of drugs or medicinal preparations which are the subject of a monograph in the British Pharmacopoeia, the standards set out in that pharmacopoeia; and

- (b) in the case of drugs or medicinal preparations contained in editions of the British Pharmaceutical Codex or the Australian Pharmaceutical Formulary (and Handbook) or earlier editions of the British Pharmacopoeia, the standards specified in the particular edition in relation to the drug or medicinal preparation.

References

75. Monographs of the British Pharmacopoeia, the British Pharmaceutical Codex, the Australian Pharmaceutical Formulary (and Handbook) and items listed in the Prescribers' List are identified in the Schedule of Benefits and associated publications by the letters BP, BPC, APF or PL respectively. References to all editions of the BPC and to earlier editions of the BP and APF also include the year of publication.

Hours of Supply

76. A person is entitled to be supplied with pharmaceutical benefits during normal trading hours established by or under the law of the State or Territory when he presents a valid prescription and pays any charge applicable. When the prescription is marked 'urgent' and initialled by the doctor or dentist who wrote the prescription, it is obligatory for the approved chemist to make supply at his pharmacy at any hour.

77. An approved chemist shall, at all times, keep prominently displayed, at each of the premises in respect of which he is approved, a notice setting out his normal trading hours for the supply of pharmaceutical benefits.

Proper Stocks to be Kept

78. An approved chemist shall, as far as practicable keep in stock an adequate supply of all drugs and medicinal preparations that he may reasonably be expected to be called upon to supply as pharmaceutical benefits, or as ingredients of pharmaceutical benefits.

Statement of Stocks

79. An approved chemist may be required to furnish, within a specified time and in accordance with a form supplied to him, a signed statement setting out particulars of stocks of drugs or medicinal preparations that are in his possession or under his control immediately before the date on which the statement is signed. This refers only to drugs and medicinal preparations that are pharmaceutical benefits or are capable of being used as ingredients in pharmaceutical benefits.

Retention of Documents

80. Without affecting the requirements of the law of a State in regard to drugs of addiction or restricted drugs, every approved chemist is required to retain in his possession for not less than one year from the date on which the pharmaceutical benefits were supplied:—

- (a) the duplicates of prescriptions which do not bear repeat instructions;
- (b) the duplicates of repeat authorisations;
- (c) in the case of an approved chemist making supply on the last occasion of supply, the duplicates of prescriptions that bear instructions to repeat; and
- (d) the duplicates of order forms presented in connection with Doctor's Bag Supplies.

Suspected Forgery

81. If an approved chemist is not satisfied that the signature on a prescription form is that of a medical practitioner or dental practitioner, or suspects that the prescription has been forged or fraudulently obtained, he is entitled, before supplying the benefit, to obtain a statement from the person obtaining the benefit. However, in the case of Emergency Drug (Doctor's Bag) order forms particular requirements are set out in paragraphs 33 and 59.

Sale Copies

82. Copies of the National Health Act and Regulations are available from the Australian Government Publishing Service in each capital city.

83. Additional copies of this publication may be purchased from the Commonwealth Department of Health in each capital city. Price and order form will be furnished upon inquiry.

Supplies of Stationery

84. Claim Forms, Repeat Authorisations, etc., are available from the Commonwealth Director of Health in each capital city.

Enquiries

85. Enquiries regarding pharmaceutical benefits may be made at the Office of the Commonwealth Director of Health in each capital city.

CODING AND SUBMISSION OF PRESCRIPTIONS PROCEDURE BY APPROVED CHEMISTS

A. INTRODUCTION

86. The pricing of valid prescriptions, repeat authorisations and Doctor's Bag order forms and the calculation of the total amount payable for each claim are carried out by means of an electronic computer which operates on coded information provided by the approved chemist in respect of each pharmaceutical benefit supplied under the National Health Act.

87. The system is designed to enable approved chemists to prepare claims correctly with a minimum of work but it is, however, essential that the instructions be followed carefully and without modification. The inclusion in claims of incorrectly coded or otherwise defective prescriptions can be expected to interrupt processing and delay payments.

88. The interest and co-operation of approved chemists in ensuring that claims are always correctly prepared is invited and would substantially assist this Department to maintain a programme of prompt and satisfactory payments.

B. GENERAL

Pensioner Benefits

89. All references in these notes to 'pensioner' shall include:—

- (i) a pensioner who holds a valid Pensioner Health Benefits Card;
- (ii) a sickness benefit recipient who holds a valid Health Benefits Card.

Time for Lodgment of Claims

90. Claims for pharmaceutical benefits may be lodged at the office of the Commonwealth Department of Health in your capital city at any time during the month and should comprise approximately one month's dispensing. Claims for pharmaceutical benefits supplied more than six months prior to the date of claiming will not be accepted for computer processing, but will require manual pricing of prescriptions and preparation of tally sheets and claim forms by the chemist. Approved chemists desiring to submit such claims should contact the office of the Director of Health for instructions regarding the preparation of the claims and the necessary forms.

Documents to be submitted

91. A claim for pharmaceutical benefits consists of:—

- (i) A completed claim form PB1.
- (ii) Where applicable a completed Form PB 4 2 — I s o l a t e d P h a r m a c y Allowance — claim for payment (see paragraphs 157, 158).
- (iii) The originals of all prescriptions, repeat authorisations, as well as special authority prescriptions for benefits supplied to the general public. These should be together in a separate bundle from the pensioner prescriptions.
- (iv) The originals of all prescriptions, repeat authorisations, as well as special authority prescriptions for benefits supplied to pensioners. These should be together in a separate bundle from the general benefit prescriptions.

NOTE:— Generally, prescriptions in each bundle should be submitted in serial number order. The exception to this is where an approved chemist has elected to price extemporaneously prepared prescriptions (see paragraphs 101, 118). These prescription forms should be placed at the back of the relevant bundle irrespective of serial numbers and the fact that other prescriptions may appear on the same form.

- (v) The original orders for Emergency Drug (Doctor's Bag) supplies in a separate bundle.
- (vi) Repeat authorisations for an injectible item and the related solvent must bear consecutive serial numbers and must be stapled together.

Completion of Claim Form

92. Particulars of claimant's name, address of approved premises, approval number and chemist's reference month should be entered in the spaces provided on the claim form PB1. It is important that these particulars agree entirely with the latest written information held by this Department, i.e., application for approval form or later letter. In the event of discrepancies, payment will necessarily be delayed pending clarification.

93. The numbers to be entered on the claim form are the first and last serial numbers given to items on the General and Pensioner Benefits and Emergency Drug (Doctor's Bag) forms respectively (see paragraph 99). The last numbers should be the total numbers of these categories.

94. Please note that no entry of the amount of the claim is required — this will be calculated by computer after the prescriptions have been individually priced.

95. The declaration on the claim form must be signed by the approved person unless an authority for another person to do so has been sent by the approved person to the Commonwealth Director of Health in the State concerned.

Prescription Identifying Numbers

96. In addition to a serial number (see paragraph 99), each pharmaceutical benefit prescription dispensed must be given a number which identifies it specifically. Prescription book numbers are preferable but any other series which will meet the purpose may be used, provided that the chemist's approval number is not a component of such numbers. Please note that these numbers are to be entered in the Coding Stamp imprint (see paragraphs 111,114).

97. Further, in cases where an approved chemist allots an identifying number to a repeat authorisation as distinct from the original prescription number allotted by the approved chemist issuing the repeat authorisation, he should enter this new identifying number in the appropriate coding box pre-printed on the front of the form.

Pharmacy Stamp

98. Before supply of a benefit, each prescription form, repeat authorisation form and authority to prescribe form should be endorsed with the name of the approved person and his approval number. This information may be stamped, written or typed.

Serial numbering of Prescriptions, Repeat Authorisations and Emergency Drug (Doctor's Bag) Order Forms

99. Within each claim, prescriptions dispensed should be serially numbered commencing at:—

- (a) 1 for general prescriptions;
- (b) P1 for pensioner benefits; and
- (c) D1 for Emergency Drug (Doctor's Bag) supplies.

Each Doctor's Bag item should be given a serial number, e.g., if there are five items on the first form in the claim the first item on the second form in the claim will be D6.

Standard Formulae List of Extemporaneous Preparations

100. Included in section 4 is a comprehensive list of pre-priced extemporaneous preparations. The list is comprised of formulae taken from formulary in common use. This list is referred to in these notes as the Standard Formulae List. Each preparation is identified with a unique five-character code.

Special Provisions Governing Payment for Extemporaneous Prescriptions Outside the Standard Formulae List

101. Where an approved chemist elects to price out these prescriptions formal advice is required by the Department. Once made, however, such an election cannot be varied for a period of three months and applies to all extemporaneously dispensed formulae for which there are no five-character codes in the Standard Formulae List.

102. Unless he so elects, the approved chemist will be paid at an average reimbursement rate for these prescriptions. Under this system, payment is made on the basis of an average 10g/ml rate applied to the category of preparation concerned, i.e., the price will be ascertained by multiplying the appropriate 10g/ml rate by the number of 10g/ml units supplied and

adding container and professional fees. For example, an 80ml mixture would be priced at eight times the average 10ml rate for mixtures, plus container and professional fee. Notwithstanding that an approved chemist is accepting the average price for non-pre-priced prescriptions, he may price out 'exceptional' prescriptions and code for reimbursement at that price (see paragraph 107).

103. The average 10g/ml rate may vary from month to month but the rate for a particular prescription will be that applicable for the month in which it was supplied. The current month's average 10g/ml rates are printed on the last page of the Statement of Account (see paragraphs 125-132).

104. By agreement with the Pharmacy Guild of Australia the average 10g/ml rate is determined as in paragraph 105.

105. Each month the total number of 10g/ml units of each type of pre-priced extemporaneous preparation claimed for will be ascertained, together with the total values minus container and professional fees. From these figures an average 10g/ml rate will be calculated for each type of preparation. This rate will be used as the rate for calculating prices for the prescriptions supplied in the succeeding month. It should be noted that prescriptions ordering a combination of standard preparations also fall outside the scope of the Standard Formulae List and therefore are subject to this section.

106.—

- (a) Any variant to a formula included in the Standard Formulae List (addition and deletion of an ingredient or variation of dose up or down) takes the formula dispensed outside the Standard Formulae List and it becomes subject to this section, i.e., it cannot be identified with the code of the formula which it resembles.
- (b) Where an approved chemist is accepting the average price of non-pre-priced prescriptions, and where an ingredient is added to a standard formula and the recovery price for the standard formula plus additive under the average price system is less than that for the standard formula alone, the approved chemist may code that prescription as though it were a standard formula item.

107. An exceptional prescription is a prescription for an extemporaneously prepared pharmaceutical benefit which is not included in the Standard Formulae List and for which the price of the ingredients calculated in accordance with basic pricing rules (paragraphs 140-148) is twice or more than twice the recovery price of the ingredients calculated on an average price basis (paragraph 102).

C. PROVISION OF CODED INFORMATION BY AN APPROVED CHEMIST

Entering of Information

108. The approved chemist will enter relevant information on each document he submits in support of his claim. The information to be entered will depend upon the type of document, i.e., original or repeat supply, Emergency Drug (Doctor's Bag) order form, etc., and on the category of prescription, i.e., ready prepared or extemporaneously prepared.

Codes for Preparations which are Pre-priced

109. A unique five-character code (e.g. 1001Q) is shown for:—

- (i) each form and strength of every ready prepared benefit (sections 2 and 3, Schedule of Benefits);

- (ii) each standard formula preparation listed in the Standard Formulae List.

Pharmaceutical benefit items which may be prescribed by participating dental practitioners are listed in a group at the end of Section 2 and a separate series of codes has been allocated to them. Only those pharmaceutical benefit items prescribed by dental practitioners should be coded with the appropriate codes published in this section.

Codes for Extemporaneous Preparations which are not Pre-Priced

110. Three-character codes representing each type of extemporaneous preparation, e.g., mixtures, ointments, etc., are shown in the Table of Codes, section 4 (Green Pages) of the Schedule. These three-character codes are to be used by the approved chemist in coding those prescriptions where a doctor has either specified the individual ingredients of a preparation or ordered a combination of standard formulae or has varied in any way a preparation included in the Standard Formulae List, and the approved chemist has not elected to price out his prescriptions. Where the approved chemist has elected to price out such prescriptions then action as outlined in paragraph 118 should be taken.

Coding Stamp

111. One stamp is provided for coding both Ready Prepared Benefits and Extemporaneously Dispensed Benefits. This stamp provides spaces for coded information on original prescription forms. Where a chemist chooses to type or machine print coding information directly on to the prescription form, the use of the stamp is unnecessary provided the requirements of paragraph 113 are observed. Repeat authorisation forms, Emergency Drug (Doctor's Bag) Order forms and Authority to Prescribe forms currently on issue have printed coding spaces.

112. Stamp imprints should be placed preferably on the extreme left of the front side of the prescription form. Many doctors as well as dentists use prescription forms which provide space suitable for this purpose, but when there is insufficient area on the front of the form the stamp should be placed on the left hand side on the back. It should be noted that coding stamps must be placed either all on the front or all on the back of an individual form. In no circumstances should the stamp imprint appear on both the back and front. Chemists are asked to avoid stamping or writing over the unique identifying number pre-printed above the letters 'N.H.S.' on the N.H.S. prescription forms supplied to medical practitioners or over the 'D.P. No.' box on N.H.S. dental prescription forms supplied to dental practitioners by the Commonwealth.

113. Where the coding stamp is not used (see paragraph 111) typed or machine printed coding information must conform to the following conditions:—

- (a) The information should be typed or printed in the same area on the prescription form as that designated for the coding stamp (see paragraph 112).
- (b) The information should be provided in the same order and position as that shown in the stamp and labelled in a similar manner i.e. 'S', 'C', 'Q', 'B', 'R' and 'No.'.

114. This stamp will be used for all pharmaceutical benefits —

S	
C	
Q	
B	R
No.	

Coding of Ready Prepared Benefits

115.—

'S'—Serial Number (see paragraph 99).

'C'—Is the appropriate code. All codes are shown in the Schedule of Benefits for Approved Chemists beside the benefits to which they refer. These numbers range from 1001Q to 3395Q.

'Q'—Quantity. The number of units dispensed, e.g., capsules, tablets, tins, vials, tubes, etc., is to be entered in the stamp imprint. Only the appropriate number should be shown. The type of dispensing unit should not be specified.

For regulation 24 prescriptions, the quantity actually supplied should be entered; that is the total of the original quantity plus the quantities ordered as repeats. The letter 'X' should be entered on the stamp imprint immediately after the quantity.

The dispensed quantity of PACKS NOT TO BE BROKEN should never be expressed as a volume or weight but always in those terms in which the maximum quantity is expressed in column 3 of section 2 or section 3 of the Schedule; e.g., a prescription ordering 200ml of a pack not to be broken should be coded with a quantity of '1' and not '200'.

'B'—Brand Ordered. Where a doctor or dentist orders a particular brand either by proprietary name or brand, the code letters of the manufacturer whose brand is ordered should be entered beside the letter 'B'. Where a particular brand is not ordered THIS SPACE MUST BE LEFT BLANK.

'R'—Repeats. Where repeats (up to the allowable maximum) are ordered on an original prescription, the number so ordered should be entered in this space, including those cases where supply has been made under Regulation 24.

'No.'—Prescription identification number (see paragraph 96).

Coding of Extemporaneously Dispensed Benefits included in the Standard Formulae List

116.—

'S'—Serial Number (see paragraph 99).

'C'—Code obtained from the Standard Formulae List where one is shown. These codes range from 7001L to 9987P.

'Q'—Quantity. The number of millilitres or grammes should be entered.

Where the supply of a standard preparation is made under Regulation 24, the quantity actually supplied followed by the letter 'X' should be entered.

'B'—This space must be left blank when coding extemporaneously dispensed prescriptions (except for provision made in paragraph 117).

'R'—Repeats. Where repeats (up to the allowable maximum) are ordered on an original prescription, the number so ordered should be entered in this space, including those cases where supply has been made under Regulation 24.

'No.'—Prescription identification number (see paragraph 96).

Dropper Containers

117. Dispensed prices for extemporaneously prepared eye drops, ear drops and nasal instillations include the cost of a polythene dropper container. Where a glass dropper container is specified by the prescriber or considered necessary by the approved chemist, the prescription should be endorsed accordingly and payment for same should be claimed by placing the letter 'g' in the brand space of the coding stamp.

Coding of Extemporaneously Dispensed Benefits which are not listed in the Standard Formulae List

118. In the case of a formulae for which a code is not shown claimants will receive an average 10g/ml rate for the type of preparation with provision to price exceptional prescriptions (see paragraph 107) or the claimants may elect to calculate the cost of ingredients, containers and professional fee manually (see paragraphs 101–106). These arrangements have been agreed between the Department and the Pharmacy Guild of Australia.

Action to be taken where an Approved Chemist is to be paid on an Average Price Basis

119.—

(a) Coding of prescriptions to be reimbursed on an average price basis.

(i) Enter the serial number, number of repeats ordered (up to the allowable maximum), if any, and the prescription identifying number in the appropriate places on the stamp imprint.

(ii) Enter the three-character code for the type of preparation in the code space (see the Table of Codes, section 4 [Green Pages] for these codes).

(iii) Enter the number of millilitres or grammes.

(iv) Where a supply is made under the provisions of Regulation 24, the letter 'X' should be entered after the quantity.

NOTE:—The space following the letter 'B' should be left blank (except for provision made in paragraph 117).

(b) Coding of Exceptional Prescriptions as defined in paragraph 107.

(i) Enter the serial number, number of repeats ordered (up to the allowable maximum), if any, and the prescription identifying number in the appropriate places in the stamp imprint.

- (ii) Enter the three-character code for the type of preparation preceded by the letter 'V' (indicating that this prescription is priced) in the code space. (See the Table of Codes, section 4 [Green Pages] for these codes.)
- (iii) Enter the calculated price in the quantity space.
- (iv) Where the supply is made under the provisions of Regulation 24 the letter 'X' should be entered after the price.

NOTE:—The space following the letter 'B' should be left blank (except for provision made in paragraph 117).

Action to be taken when an Approved Chemist elects to price non-pre-priced Extemporaneous Preparations

120. When the approved chemist has advised the Department of his election to price out these prescriptions he should price all prescriptions in this category in accordance with the pricing principles set out in 'Provisions governing Payments to Approved Chemists for N.H.S. dispensing' (paragraphs 140-148) and:—

- (i) enter the serial number, number of repeats ordered (up to the allowable maximum), if any, and the prescription identifying number in the appropriate sections of the stamp imprint;
- (ii) enter only the letter 'V' in the code space. This indicates that the prescription has been priced out;
- (iii) enter the price he has calculated in the quantity space;
- (iv) where a supply is made under the provisions of Regulation 24, the letter 'X' should be entered after the price.

NOTE:—No details of type or quantity of preparation are to be shown in the code stamp.

Coding of Repeat Authorisation Forms

121. The approved chemist originating a repeat will enter on the form the information set out in paragraph 51 together with the code, quantity and where applicable the brand of the benefit ordered.

Coding of Repeat Authorisation Forms Used for Deferred Supply

122. An approved chemist who has supplied a benefit on the presentation of a repeat authorisation form which has been prepared for deferred supply should code the form in the same manner as a normal repeat authorisation except that the serial number allotted by the approved chemist in respect of a benefit supplied as a general benefit is to be preceded by the letter 'D' and the letters 'DP' in the case of a pensioner benefit.

Action by Approved Chemist Dispensing a Repeat Authorisation

123. It is the responsibility of the chemist dispensing a repeat supply to ensure the details of the coding on the repeat authorisation form are correct. It should be noted that:—

- (a) The serial number allotted by the approved chemist to the repeat supplied as a general (non-pensioner) benefit is entered beside the letter 'R' in the box at the top of the form. Serial numbers issued in respect of repeats supplied for which an Authority to Prescribe is required must be prefixed with the letter 'A' in the case of general benefits, and the letters 'AP' in the case of pensioner benefits.
- (b) The new identifying number of the Repeat Authorisation is to be entered in the space marked 'No.' in the Coding Stamp Box on the front of the form. (See paragraph 97.)
- (c) When the approved chemist issuing the authorisation has entered a code number (for the type of preparation) and quantity in the stamp and the dispensing approved chemist has elected to price such prescriptions instead of accepting the average price, the dispensing approved chemist should strike out the entries and replace them with 'V' and the claimed price or vice versa.

Coding of Emergency Drug (Doctor's Bag) Order Forms

124. For each item ordered, enter the serial number, code of the benefit, quantity supplied and the brand ordered, if any.

D. STATEMENT OF ACCOUNT

125. A Statement of Account will be forwarded in respect of each claim passed for payment. This gives, in addition to the details of payment, the price paid for each benefit or the reason for non-payment. Prescriptions are identified on the Statement of

Account by the serial numbers allotted by the claimant and the item code. In the case on non-priced extemporaneously prepared benefits the letter 'V' or the three-character code for the type of preparation replaces the item codes according to whether the prescriptions have been paid on the average price or calculated price basis. Serial numbers of Emergency Drug (Doctor's Bag) items will be prefixed by the letter 'D' and the pensioner prescriptions by the letter 'P'.

126. The reason for non-payment of any item will be indicated by a code letter. An explanation of the code employed appears on the reverse side of the Statement of Account.

127. Prescriptions and repeat authorisations which are not acceptable for payment will be returned with the Statement of Account. Other prescriptions appearing on such forms will have been paid and appropriately cancelled before being returned to the approved chemist. Where prescriptions are resubmitted they must be allotted an entirely new serial number and included as a normal part of the next claim.

128. If prescriptions from previous claims are the subject of adjustment to current claims, full details will be shown on the Statement of Account.

129. Where a correctly coded prescription has not been given a serial number by the claimant, the serial number given to the preceding prescription will be used also as a means of reference to the second prescription, i.e., the serial number will appear twice on the Statement of Account with the appropriate prices or rejection codes relating to both prescriptions.

130. Should serial numbers be duplicated they will be shown on the Statement of Account as numbered by the claimant.

131. In the case of a serial number which has not been used or the relevant document not submitted the number will be printed on the Statement of Account together with a code signifying that the document has not been received.

132. The Statement of Account will include a statement reconciling the number of prescriptions claimed for by the approved chemist with the number of prescriptions for which payment has been made.

PROVISIONS GOVERNING PAYMENTS TO APPROVED CHEMISTS FOR N.H.S. DISPENSING

A. READY PREPARED BENEFITS

Price where Maximum Quantity Prescribed (Ready Prepared Items)

133. The price payable for a benefit is the amount shown in column 5 of the Schedule against the benefit subject to the following provision:—

Injectons with required solvent —Where the words 'solvent required' are included after the form of the benefit, the price payable is the sum of the listed prices for the item and the solvent less a professional fee (i.e., only one professional fee is payable). Prescribers must indicate volume and number of ampoules of solvent to be supplied.

Price where Broken Quantity Prescribed (R.P. Items)

134.—

(a) Packs not to be broken —Where items packed by the manufacturer under special conditions or for which the maximum quantity has been determined as a single pack are prescribed (see paragraph 136), maximum quantity should be supplied and the price payable is that for the maximum quantity.

(b) Ready Prepared Items where Standard Pack coincides with Maximum Quantity —Where the standard pack coincides with the maximum quantity, the price payable for a broken quantity is ascertained as follows —

- (i) an amount equivalent to the professional fee and where applicable the dangerous drug fee is deducted from the price shown in column 5 of the Schedule in relation to the benefit.
- (ii) To the resultant amount is applied the appropriate wastage percentage ascertained from the Wastage Factor Table shown in paragraph 138.
- (iii) The amount ascertained under (ii) is added to an amount equivalent to the professional fee, the dangerous drug fee, where applicable, and the appropriate container fee.

In no case shall the price payable for a broken quantity exceed the dispensed price shown in column 5 of the Schedule in relation to the maximum quantity of the benefit.

(c) Ready Prepared Items where Standard Pack does not coincide with Maximum Quantity (i.e. where an asterisk is shown against the price) — In cases where the standard

pack does not coincide with the maximum quantity an asterisk has been placed in column 5 of the Schedule beside the price shown for the benefit concerned. In such cases the standard pack rate is set out in the Table shown in section 6 (Blue Pages) of the Schedule. The price payable for the quantity supplied is ascertained as follows:—

- (i) To the standard rate is applied the appropriate wastage table percentage ascertained from the Wastage Factor Table shown in paragraph 138.
- (ii) The amount so ascertained is added to an amount equivalent to the professional fee, the dangerous drug fee, where applicable, and the appropriate container fee.

In no case shall the price payable for a broken quantity which is less than the maximum quantity of the item exceed the dispensed price for the maximum quantity of that item.

- (d) No container fee is payable where the quantity of benefit ordered and supplied is more than the quantity contained in the standard or non-standard packs.

Price for Unbranded Prescriptions

135. Where a standard pack price applies, the lowest price for the relevant State shown in column 5 of the Schedule in relation to that item is payable.

Unbroken Packs to be Supplied (‡)

136. The maximum quantity of certain forms of benefits such as eye drops and oral suspensions has been determined as a single pack corresponding to the manufacturer's pack. Where a prescription calls for a quantity less than the manufacturer's pack, the maximum quantity should be dispensed and claimed from the Department. These items are indicated by a double dagger (‡) in the Schedule.

Wastage Table Percentage for Ready Prepared Preparations

137. The wastage table shown below is used in ascertaining the price payable for quantities dispensed from the Standard Pack. (Refer paragraph 134 (b) and (c) above.)

138. The appropriate wastage table percentage is ascertained as follows:—

- (a) The percentage that the quantity supplied bears to the number contained in the standard pack is determined;

(b) Where the percentage determined in subparagraph (a) coincides with a percentage listed in Column A of the Wastage Factor Table, the percentage used is the relative figure shown in Column B;

(c) Where the percentage determined in subparagraph (a) does not coincide with a percentage in Column A, then the nearest upward percentage in Column A applies, and the percentage used is the relative figure shown in Column B.

For example, suppose that 24 tablets are supplied and that the number in the Standard Pack is 100. Thus 24% of the number contained in the Standard Pack is supplied. As this percentage does not appear in Column A the next higher (i.e. 25%) is used. Reading down from 25% to Column B, the wastage table percentage is found to be 38%.

Wastage factor table

Column A	5	10	15	20	25	30	35	40	45	50
Column B	10	18	26	32	38	44	50	54	58	62
Column A	55	60	65	70	75	80	85	90	95	100
Column B	66	70	74	78	82	86	90	94	98	100

Prescribers' List Items

139. The price payable for the supply of the maximum quantity of extemporaneous preparations included in the Prescribers' List is shown in the Standard Formulae List.

B. EXTEMPOREANEOUSLY PREPARED BENEFITS

Pricing Prescriptions Not Pre-Priced

140. The following are the principles applied in determining the prices of all pre-priced extemporaneous formulae shown in the Standard Formulae List. They also apply where a chemist elects to price out extemporaneous prescriptions outside the Standard Formulae List.

141. The amount payable is ascertained as the sum of:—

- (a) the recovery price of each ingredient as shown in the Drug Tariff;
- (b) the price of the appropriate container as shown in section 4; and
- (c) a professional fee as shown in section 4.

Pricing of Ingredients

142. Where the quantity is not specified in the Drug Tariff, the recovery price may be ascertained as follows:—

- (a) determine the basic pricing unit relative to the quantity by reference to the following table:—

Quantity	Basic Pricing Unit
Up to 50mg (minimum price)	100mg price multiplied by 0.5
Over 50mg and up to and including 700mg	100mg price
Over 700mg and up to and including 1g	price as 1g
Over 1g and up to and including 7g	1g price
Over 7g and up to and including 10g	price as 10g
Over 10g and up to and including 80g	10g price
Over 80g and up to and including 90g	price as 80g
Over 90g	100g price

- (b) ascertain the recovery price of the basic pricing unit by the application of the following quantity divisors to the recovery price shown for the ingredient in the Drug Tariff —

100g price is 500g price divided by 5 or
1kg price divided by 10.

10g price is 100g price plus 12½%
divided by 10.

1g price is 10g price plus 25% divided
by 10.

100mg price is 1g price plus 25%
divided by 10.

- (c) ascertain the recovery price by multiplying the price of the basic pricing unit, as ascertained in (b), by the fraction that the quantity bears to the basic pricing unit.

- (d) for pricing purposes the quantity is to be taken to the next 50 milligrams or 0.05 millilitres.

Miscellaneous Pricing Rules

143.—

- (a) The minimum recovery price for any ingredient is one cent.
- (b) Where a fraction of a cent occurs in a price that price is to be taken to the nearest cent, a half cent being taken up to the next cent.

- (c) The amount payable for a quantity of an ingredient or preparation shall not exceed the amount which would be payable for a greater amount of that ingredient or preparation.

Pricing Prescriptions where Additional Ingredients have been added to a Specified Formula

144. The amount payable for a prescription which comprises a vehicle which is specified under a particular name, and an additional specified ingredient or ingredients shall be calculated in accordance with paragraphs 145 to 148.

145. Where the vehicle is a single liquid ingredient and one or more solid ingredients are added, displacement of the vehicle by solids shall be disregarded and the amount payable shall be calculated in accordance with paragraph 142.

146. Where the vehicle is a single liquid ingredient and one or more liquids are added, the amount payable for the ingredients shall be the sum of:—

- (a) the recovery price of the added ingredients, calculated in accordance with paragraph 142; and
- (b) the recovery price of the quantity of the vehicle calculated in accordance with paragraph 142.

147. Where the vehicle is compounded from two or more ingredients and one or more solid ingredients are added, displacement of the vehicle by the solid ingredients shall be disregarded and the amount payable for the ingredients shall be the sum of:—

- (a) the recovery price of the added ingredients, calculated in accordance with paragraph 142; and
- (b) the recovery price of each ingredient of the vehicle calculated in accordance with paragraph 142.

148. Where the vehicle is compounded from two or more ingredients and one or more liquid ingredients are added, the amount payable for the ingredients shall be the sum of:—

- (a) the recovery price of the added ingredients, calculated in accordance with paragraph 142; and
- (b) the recovery price of the quantity of vehicle, this amount being the sum of the recovery prices for each ingredient of the vehicle in such quantity as calculated in accordance with paragraph 142.

Containers

149. Separate container rates are payable in each State.

150. Where a quantity is ordered in excess of the published container sizes, payment for containers will be made as if that quantity had been supplied in more than one of the published containers.

151. A double size container is allowed for bulk powders.

C. GENERAL

Pricing Principles

152. The pricing principles are identical for prescriptions written for the general public and pensioners.

153. Where a prescription for a pharmaceutical benefit, a formulation of which is available as a ready prepared pharmaceutical benefit, does not specify a brand, payment is made on the basis of the lowest priced brand of the ready prepared benefit item which is listed. This also applies if the preparation is, or the ingredients are, available for use in dispensing extemporaneously prepared benefits (i.e. listed in Section 4).

154. Where, in a prescription for a pharmaceutical benefit which is not listed as a ready prepared pharmaceutical benefit, a monograph title of a formulation is stated but no formulary is specified, payment is made on the basis of the formula, if any, specified in the Prescribers' List (Section 5). Should there be no formula specified in the Prescribers' List, payment is made on the basis of the precedence of formularies accorded by State legislation.

Fees and Containers

155. The amounts payable by way of professional fee, dangerous drug fee and container charges for ready prepared preparations are set out in section 6 of the Schedule. The professional fee and container charges for extemporaneously prepared preparations are set out in section 4 of the Schedule.

Pricing Dates

156. For pricing purposes the operative dates are:—

- (a) for extemporaneously prepared benefits — the first day of January, May and September each year for benefits supplied as from the first day of the third succeeding month.
- (b) for ready prepared benefits — the first day of the month preceding the month during which the benefits are dispensed.
- (c) for containers:—
 - (i) for extemporaneously prepared benefits — the first day of April, August and December each year for benefits supplied as from the first day of the fourth succeeding month.
 - (ii) for ready prepared benefits — the first day of January each year for benefits supplied as from the first day of April in that year.

Isolated Pharmacy Allowance (IPA)

157. Approved chemists providing a pharmaceutical service in isolated areas may apply for IPA on the basis of economic need. Application forms may be obtained from the Assistant Director-General, Pharmaceutical Benefits Branch, Department of Health, P.O. Box 100, Woden, A.C.T., 2606.

158. Approved chemists eligible to receive IPA will be:—

- (i) those where the pharmacy is more than 25 kilometres from the nearest pharmacy and who are able to demonstrate the need for such allowance on the basis of economic need;
- (ii) those where the pharmacy can be demonstrated to be 'isolated' on a basis other than distance (e.g. on an island, intervening mountain range, no roads) and where economic need can be demonstrated.

NOTE: Only those brands of benefits listed in section 2 (white pages) may be ordered on a Doctor's Bag Order Form.

SCHEDULE OF BENEFITS

SECTION 2

RESTRICTED BENEFITS

All restricted items are printed in red.

A straight line is drawn between entries for different forms and strengths of an item to clearly indicate the different restrictions which apply to these various forms and strengths.

The maximum quantity and/or number of repeats in respect of an item shown in the Schedule may be varied by the Director of Health when issuing an authority prescription (Form PB86) or an authority to prescribe (Form PB15). The quantity and number of repeats shown on the authority shall be supplied. Payment will be made on the basis of the price shown for that item in the Schedule. (See paragraphs 26,27 and 65 of Section 1 - Explanatory Notes (lemon pages).)

SYMBOLS USED IN THE SCHEDULE

An asterisk (*) against the price of a benefit indicates that the manufacturer's pack does not coincide with the maximum quantity.

A double dagger (‡) in the maximum quantity column indicates an item for which the maximum quantity has been specially determined to correspond to the manufacturer's pack and the manufacturer's standard pack should be supplied.

A gauge sign (§) against the price of an item indicates that the product is not preconstituted and that a special professional fee of \$2.14 is included in the dispensed price.

Where a STATE is indicated after a manufacturer's code, that brand may be available only in the State indicated.
N.S.W. - (N); Vic. - (V); Qld. - (Q); S.A. - (S);
W.A. - (W); Tas. - (T).

SECTION 4

SCHEDULE OF BENEFITS

DRUG TARIFF

CONTAINER PRICES FOR EXTEMPORANEOUSLY PREPARED
BENEFITS

STANDARD FORMULAE PREPARATIONS

TABLE OF CODES, MAXIMUM QUANTITIES AND NUMBER OF
REPEATS FOR EXTEMPORANEOUSLY PREPARED BENEFITS

DRUG TARIFF

Where liquids are purchased by weight, the recovery price includes the 'Specific Gravity Factor'.

Drugs marked (a) and (b) —

- (a) Where the quantity dispensed is greater than the quantity shown against items marked thus, the recovery price is:

$$\frac{\text{Quantity dispensed}}{\text{Quantity listed}} \times \text{price shown};$$

- (b) Items marked thus are packed sterile or are unstable. The recovery price is:

$$\left(\frac{\text{Quantity dispensed}}{\text{Quantity listed}} \right) \text{ taken to next whole number} \times \text{price shown}.$$

Special Note:

Purified Water BP is the minimum requirement for water in all N.H.S. extemporaneous preparations.

Professional Fee for Extemporaneously Prepared Benefits \$2.14

STANDARD FORMULAE PREPARATIONS

The following list is provided for the purpose of facilitating coding in respect of the items shown. It is not intended to indicate in any way which particular formula an approved chemist should use in filling a prescription.

Where an approved chemist supplies a preparation that is outside this list, the appropriate three-character code as shown on page 18 (section 4) should be used, except where the chemist has elected to price such prescriptions.

It should also be noted that the use of codes that have been removed from this section will cause delays in payment of claims.

The prices shown in this section are for ingredients and professional fee only. The appropriate container price as shown on page 9 (section 4) is to be added to obtain the final recovery prices.

SECTION 5 — PRESCRIBERS' LIST

PRESCRIPTION

CREAMS

(Maximum Quantity 100g and 1 Repeat)

7655X ALUMINIUM ACETATE, OILY (APF)

Aluminium Acetate Solution		5	ml
Zinc Oxide		20	g
Wool Fat		25	g
Arachis Oil		25	ml
Purified Water, freshly boiled and cooled		27	ml

7322J AQUEOUS (APF, BP)

Emulsifying Ointment		30	g
Chlorocresol		100	mg
Purified Water, freshly boiled and cooled to		100	g

7503X BUFFERED, AQUEOUS (APF)

Sodium Phosphate		2.5	g
Citric Acid Monohydrate		500	mg
Chlorocresol		100	mg
Emulsifying Ointment		30	g
Glycerol		5	ml
Purified Water, freshly boiled and cooled to		100	g

7320G CALAMINE, AQUEOUS (APF)

Calamine		4	g
Zinc Oxide		3	g
Cetomacrogol Emulsifying Wax		6	g
Arachis Oil		30	g
Purified Water, freshly boiled and cooled to		100	g

7659D CALAMINE, OILY (APF)

Calamine		32	g
Oleic Acid		0.5	ml
Arachis Oil		21.5	ml
Wool Fat		17.5	g
Calcium Hydroxide Solution		30.5	ml

7497N CETOMACROGOL, AQUEOUS (APF)

Cetomacrogol Emulsifying Wax		15	g
Liquid Paraffin		10	g
White Soft Paraffin		10	g
Chlorocresol		100	mg
Propylene Glycol		5	ml
Purified Water, freshly boiled and cooled to		100	g

PRESCRIPTION

7661F CETRIMIDE, AQUEOUS (APF)

Cetrimide		500	mg
Chlorocresol		100	mg
Cetostearyl Alcohol		5	g
Liquid Paraffin		50	g
Purified Water, freshly boiled and cooled to		100	g

7490F CHLORHEXIDINE, AQUEOUS (APF) (Chlorhexidine 1% BP)

Chlorhexidine Gluconate Solution		5	ml
Cetomacrogol Emulsifying Wax		25	g
Liquid Paraffin		10	g
Purified Water, freshly boiled and cooled to		100	g

7318E COAL TAR and ZINC, OILY (APF)

Coal Tar, BPC		1	g
Castor Oil		1	g
Zinc Cream Oily APF		98	g

7499Q COLD (APF)

White Beeswax		17	g
Liquid Paraffin		45	g
Borax		1	g
Purified Water, freshly boiled and cooled		37	ml

7664J GLYCEROL, OILY (APF)

Glycerol		20	g
Calcium Hydroxide Solution		32	ml
Arachis Oil		22	g
Wool Fat		26	g

7666L ICHTHAMMOL and ZINC, OILY (APF)

Ichthammol		5	g
Wool Fat		15	g
Zinc Cream Oily APF		80	g

9556Y OILY (APF)

Wool Alcohols Ointment, APF		50	g
Purified Water, freshly boiled and cooled		50	ml

7892J SALICYLIC ACID and RESORCINOL, AQUEOUS (APF)

Salicylic Acid		2	g
Resorcinol		2	g
Aqueous Cream, APF to		100	g

PREScription

CREAMS — *continued*

7893K SALICYLIC ACID and SULPHUR, AQUEOUS (APF)

Salicylic Acid				2	g
Precipitated Sulphur				2	g
Spike Lavender Oil				0.5	ml
Aqueous Cream, APF to				100	g

7667M ZINC, OILY (APF)

Zinc Oxide				32	g
Oleic Acid				0.5	ml
Arachis Oil				21.5	ml
Wool Fat				17.5	g
Calcium Hydroxide Solution				30.5	ml

7654W ZINC, WEAK (PL)

Zinc Oxide				5	g
Oleic Acid				0.5	ml
Arachis Oil				38.5	ml
Wool Fat				25	g
Calcium Hydroxide Solution				34.5	ml

DUSTING POWDER

(Maximum Quantity 100g and 1 Repeat)

7458M ZINC, STARCH and TALC (APF)

Zinc Oxide				25	g
Starch				25	g
Purified Talc, sterilised				50	g

EAR DROPS

(Maximum Quantity 15ml and 2 Repeats)

7642F ALUMINIUM ACETATE (APF)

Aluminium Acetate Solution				9	ml
Purified Water, freshly boiled and cooled to				15	ml

7487C CHLORHEXIDINE (APF)

Chlorhexidine Acetate				7.5	mg
Purified Water, freshly boiled and cooled to				15	ml

7645J ICHTHAMMOL (APF)

Ichthammol				10	g
Glycerol				90	g

7316C PHENYLMERCURIC NITRATE (APF)

Phenylmercuric Nitrate				15	mg
Propylene Glycol				7.5	ml
Purified Water, freshly boiled and cooled to				15	ml

PREScription

7315B SALICYLIC ACID (APF)

Salicylic Acid				300	mg
Alcohol (90 per cent)				7.5	ml
Purified Water, freshly boiled and cooled to				15	ml

7314Y SODIUM BICARBONATE (APF, BP)

Sodium Bicarbonate				750	mg
Glycerol				4.5	ml
Purified Water, freshly boiled and cooled to				15	ml

7313X SPIRIT (APF)

Alcohol (90 per cent)				7.5	ml
Purified Water, freshly boiled and cooled to				15	ml

INHALATIONS

(Maximum Quantity 50 ml and 1 Repeat)

7485Y BENZOIN (PL)

Benzoin Tincture, Compound				50	ml
----------------------------	------	------	------	----	----

8577K BENZOIN, COMPOUND (PL)

Menthol				1	g
Oil of Siberian Fir				2.5	ml
Benzoin Tincture, Compound to				50	ml

7484X BENZOIN and MENTHOL (PL, APF)

Menthol				1	g
Benzoin Tincture, Compound to				50	ml

7310R MENTHOL and EUCALYPTUS (BP)

Menthol				1	g
Eucalyptus Oil				5	ml
Light Magnesium Carbonate				3.5	g
Purified Water to				50	ml

7309Q MENTHOL and PINE (APF)

Menthol				1	g
Pumilio Pine Oil				2.5	ml
Alcohol (90 per cent) to				50	ml

LINCTUS

(Maximum Quantity 100 ml and 2 Repeats)

8619P SIMPLE (APF)

Citric Acid Monohydrate				125	mg
Concentrated Chloroform Water				0.15	ml
Amaranth Solution				0.1	ml
Concentrated Anise Water				0.05	ml
Syrup to				5	ml

PRESCRIPTION

LINIMENTS

(Maximum Quantity 100 ml and 1 Repeat)

7884Y CAMPHOR (APF)

Camphor					20	g
Arachis Oil					80	g

7480Q METHYL SALICYLATE, COMPOUND (APF)

Menthol					4	g
Eucalyptus Oil					10	ml
Methyl Salicylate					25	ml
Arachis Oil to					100	ml

LOTIONS

(Maximum Quantity 200 ml and 2 Repeats)

7629M CALAMINE (APF, BP)

Calamine					30	g
Zinc Oxide					10	g
Bentonite, sterilised					6	g
Sodium Citrate					1	g
Liquefied Phenol					1	ml
Glycerol					10	ml
Purified Water, freshly boiled and cooled to					200	ml

7630N CALAMINE, OILY (APF, BP)

Calamine					10	g
Wool Fat					2	g
Arachis Oil					100	ml
Oleic Acid					1	ml
Calcium Hydroxide Solution to					200	ml

8793T RESORCINOL, COMPOUND (APF)

Resorcinol					5	g
Solvent Ether					5	ml
Castor Oil					5	ml
Spike Lavender Oil					0.2	ml
Alcohol (90 per cent) to					200	ml

7633R SULPHURATED (APF)

Zinc Sulphate					10	g
Sulphurated Potash					10	g
Acetone					10	ml
Glycerol					10	ml
Spike Lavender Oil					0.4	ml
Purified Water, freshly boiled and cooled to					200	ml

PRESCRIPTION

MIXTURES

(Maximum Quantity 200 ml and 4 Repeats)

7905C ASPIRIN (APF)

Aspirin					500	mg
Compound Tragacanth Powder					250	mg
Orange Syrup, APF					1	ml
Concentrated Chloroform Water					0.25	ml
Purified Water to					10	ml

7303J CHALK and KAOLIN (APF)

Chalk					1.5	g
Light Kaolin or Light Kaolin (Natural)					2.5	g
Alum					10	mg
Concentrated Chloroform Water					0.25	ml
Purified Water to					10	ml

7906D CHLORAL (APF)

Chloral Hydrate					1	g
Orange Syrup, APF					1	ml
Concentrated Chloroform Water					0.25	ml
Purified Water to					10	ml

7908F FERROUS SULPHATE (APF)

Ferrous Sulphate					300	mg
Ascorbic Acid					10	mg
Orange Syrup, APF					0.5	ml
Concentrated Chloroform Water					0.25	ml
Purified Water to					10	ml

7603E GENTIAN, ACID (PL)

Concentrated Compound Gentian Infusion					1	ml
Dilute Hydrochloric Acid					0.5	ml
Concentrated Chloroform Water					0.25	ml
Purified Water to					10	ml

7604F GENTIAN, ALKALINE (APF, BP)

Concentrated Compound Gentian Infusion					1	ml
Sodium Bicarbonate					500	mg
Concentrated Chloroform Water					0.25	ml
Purified Water to					10	ml

7492H IPECACUANHA and SQUILL (APF)

Synonym: Cough Mixture

Ipecacuanha Tincture					0.25	ml
Compound Camphor Spirit					1	ml
Tolu Syrup					1	ml
Squill Oxymel					1	ml
Concentrated Chloroform Water					0.15	ml
Concentrated Anise Water					0.15	ml
Purified Water to					10	ml

PREScription

MIXTURES — *continued*

7301G KAOLIN and OPIUM (APF)

Light Kaolin or Light Kaolin (Natural)	2.5	g
Alum	10	mg
Opium Tincture	0.5	ml
Concentrated Chloroform Water	0.25	ml
Purified Water to	10	ml

7909G MAGNESIUM TRISILICATE (APF)

Magnesium Trisilicate	1	g
Calcium Carbonate	500	mg
Light Magnesium Carbonate	500	mg
Concentrated Peppermint Water	0.25	ml
Concentrated Chloroform Water	0.25	ml
Purified Water to	10	ml

7910H POTASSIUM CHLORIDE (APF)

Potassium Chloride	1	g
Lemon Syrup, APF	2	ml
Concentrated Chloroform Water	0.25	ml
Purified Water to	10	ml

7911J POTASSIUM CITRATE (APF)

Potassium Citrate	2	g
Citric Acid Monohydrate	400	mg
Lemon Syrup, APF	1	ml
Concentrated Chloroform Water	0.2	ml
Purified Water to	10	ml

7932L POTASSIUM CITRATE and SODIUM BICARBONATE (APF)

Potassium Citrate	1	g
Sodium Bicarbonate	750	mg
Orange Syrup, APF	1	ml
Concentrated Chloroform Water	0.2	ml
Purified Water to	10	ml

7618Y POTASSIUM IODIDE and STRAMONIUM, COMPOUND (APF)

Synonym: Lobelia and Stramonium Mixture

Potassium Iodide	250	mg
Stramonium Tincture	0.5	ml
Lobelia Tincture, Ethereal	0.5	ml
Aromatic Ammonia Spirit	0.5	ml
Liquorice Liquid Extract	0.5	ml
Concentrated Chloroform Water	0.25	ml
Purified Water to	10	ml

PREScription

7933M SODIUM CITRATE (APF)

Sodium Citrate	2	g
Citric Acid Monohydrate	400	mg
Lemon Syrup, APF	1	ml
Concentrated Chloroform Water	0.2	ml
Purified Water to	10	ml

7623F SODIUM SALICYLATE (APF)

Sodium Salicylate	1	g
Liquorice Liquid Extract	0.25	ml
Concentrated Chloroform Water	0.25	ml
Purified Water to	10	ml

NASAL INSTILLATIONS

(Maximum Quantity 15 ml and 2 Repeats)

7576R DEXTROSE and GLYCEROL (APF)

Dextrose	3	g
Glycerol to	15	ml

7574P EPHEDRINE (APF)

Ephedrine Hydrochloride	150	mg
Chlorbutol	75	mg
Sodium Chloride	75	mg
Propylene Glycol	0.75	ml
Purified Water, freshly boiled and cooled to	15	ml

OINTMENTS

(Maximum Quantity 100 g and 1 Repeat)

9497W BENZOIC ACID, COMPOUND (APF, BP)

Benzoic Acid in fine powder	6	g
Salicylic Acid in fine powder	3	g
Emulsifying Ointment	91	g

7918R EMULSIFYING (APF, BP)

Emulsifying Wax	30	g
White Soft Paraffin	50	g
Liquid Paraffin	20	g

9592W RESORCINOL and SULPHUR, COMPOUND (APF)

Resorcinol	2	g
Precipitated Sulphur	3	g
Salicylic Acid	1	g
White Simple Ointment	94	g

7926E SALICYLIC ACID (APF)

Salicylic Acid	2	g
Wool Alcohols Ointment, APF	98	g

PRESCRIPTION

OINTMENTS — *continued*

7927F SIMPLE (APF, BP)

(White Simple Ointment)

Wool Fat				5	g
Hard Paraffin				5	g
Cetostearyl Alcohol				5	g
White Soft Paraffin				85	g

7899R ZINC and CASTOR OIL (APF, BP)

Zinc Oxide				7.5	g
Castor Oil				50	g
Cetostearyl Alcohol				2	g
White Beeswax				10	g
Arachis Oil				30.5	g

7896N ZINC OXIDE (APF)

(Zinc BP)

Zinc Oxide				15	g
White Simple Ointment				85	g

PAINTS

(Maximum Quantity 25 ml and 1 Repeat)

7562B ICHTHAMMOL (APF)

Ichthammol				10	g
Glycerol				90	g

9770F MAGENTA (APF)

Magenta				100	mg
Resorcinol				2	g
Phenol				1	g
Boric Acid				200	mg
Alcohol (90 per cent)				2.125	ml
Acetone				1	ml
Purified Water to				25	ml

7566F PODOPHYLLIN (APF)

Podophyllum Resin				1.25	g
Benzoin Tincture, Compound to				25	ml

7567G PODOPHYLLIN, STRONG (APF)

(Podophyllin, Compound BP)

Podophyllum Resin				3.75	g
Benzoin Tincture, Compound to				25	ml

PRESCRIPTION

7568H SALICYLIC ACID (APF)

Salicylic Acid				2.5	g
Flexible Collodion to				25	ml

PASTES

(Maximum Quantity 100 g and 1 Repeat)

7555P COAL TAR and ZINC (APF)

Coal Tar				1	g
Castor Oil				1	g
Compound Zinc Paste				98	g

9740P DITHRANOL and ZINC (APF)

Dithranol				100	mg
Zinc and Salicylic Acid Paste				99.9	g

9742R TITANIUM DIOXIDE (APF)

Titanium Dioxide				20	g
Calamine				25	g
Light Kaolin or Light Kaolin					
(Natural)				10	g
Bentonite, sterilised				1	g
Chlorocresol				100	mg

Zinc Oxide				25	g
Starch				25	g
White Soft Paraffin				50	g

7559W ZINC and SALICYLIC ACID (APF)

Salicylic Acid				2	g
Liquid Paraffin				2	g
Compound Zinc Paste				96	g

POWDER

(Maximum Quantity 100 g and 2 Repeats)

7549H MAGNESIUM and CALCIUM CARBONATE (APF)

Calcium Carbonate				25	g
Heavy Magnesium Carbonate				25	g
Magnesium Trisilicate				50	g
Peppermint Oil				0.2	ml

SECTION 5 — PRESCRIBERS' LIST — CHILDREN'S SECTION

PRESCRIPTION

MIXTURES

(Maximum Quantity 100ml and 4 Repeats)

7783P ASPIRIN (APF)

Aspirin				150	mg
Compound Tragacanth Powder				100	mg
Raspberry Syrup				1	ml
Concentrated Chloroform Water				0.1	ml
Purified Water to				5	ml

7785R BELLADONNA (APF)

Belladonna Tincture				0.1	ml
Orange Syrup, APF				1	ml
Glycerol				1	ml
Benzoic Acid Solution				0.1	ml
Purified Water to				5	ml

7786T CALCIUM and KAOLIN (APF)

Calcium Carbonate				500	mg
Light Kaolin or Light Kaolin (Natural)				1	g
Alum				5	mg
Concentrated Chloroform Water				0.1	ml
Purified Water to				5	ml

7793E CHLORAL (APF)

Chloral Hydrate				250	mg
Orange Syrup, APF				2	ml
Concentrated Chloroform Water				0.1	ml
Purified Water to				5	ml

7788X FERROUS GLUCONATE (APF)

Ferrous Gluconate				200	mg
Dextrose				500	mg
Orange Syrup, APF				1	ml
Citric Acid Monohydrate				25	mg
Concentrated Chloroform Water				0.1	ml
Purified Water to				5	ml

PRESCRIPTION

7789Y FERROUS SULPHATE (APF)

Ferrous Sulphate				100	mg
Ascorbic Acid				5	mg
Orange Syrup, APF				1	ml
Concentrated Chloroform Water				0.1	ml
Purified Water to				5	ml

7493J IPECACUANHA and SQUILL (APF)

Ipecacuanha Tincture				0.1	ml
Compound Camphor Spirit				0.25	ml
Squill Oxymel				1	ml
Purified Water to				5	ml

7791C POTASSIUM CITRATE (APF)

Potassium Citrate				1	g
Citric Acid Monohydrate				200	mg
Lemon Syrup, APF				1	ml
Concentrated Chloroform Water				0.1	ml
Purified Water to				5	ml

7586G POTASSIUM IODIDE (APF)

Potassium Iodide				100	mg
Liquorice Liquid Extract				0.25	ml
Aromatic Ammonia Spirit				0.1	ml
Concentrated Chloroform Water				0.1	ml
Purified Water to				5	ml

7792D SODIUM CITRATE (APF)

Sodium Citrate				1	g
Citric Acid Monohydrate				200	mg
Lemon Syrup, APF				1	ml
Concentrated Chloroform Water				0.1	ml
Purified Water to				5	ml

CHILDREN'S SECTION

SECTION 6 — CONTAINER PRICES, FEES, STANDARD PACKS AND PRICES, FOR READY PREPARED PREPARATIONS

CONTAINER PRICES FOR QUANTITIES OF READY PREPARED PREPARATIONS LESS THAN MAXIMUM

Injectibles	150 ml vial, 23c
Other items	25 ml vial, 8c
(The 25ml is the most commonly used size)	

Fees —

Ready prepared professional fee \$1.51

Dangerous drug fee \$1.00

NOTE:— Standard packs and prices (including mark up, but without professional fee and dangerous drug fee) are for items against the price of which an asterisk (*) is shown in the Schedule.

(Apply wastage factor in calculating broken quantity prices)

CUMULATIVE AMENDMENTS OF THE SCHEDULE OF PHARMACEUTICAL BENEFITS
DECEMBER 1981 EDITION FOR APPROVED CHEMISTS
DECEMBER/JANUARY/FEBRUARY/MARCH

PROFESSIONAL FEES

The professional fees for the supply of ready prepared and extemporaneously prepared pharmaceutical benefits have been increased as from 1 January 1982.

The new professional fees are:-

Ready prepared benefits - \$1.66

Extemporaneously prepared benefits - \$2.29

Prices in the December 1981 edition of the Schedule of Pharmaceutical Benefits as well as the cumulative amendments relevant to this issue include the fees of \$1.51 for ready prepared benefits and \$2.14 for extemporaneously prepared benefits.

The new fees will be incorporated in prices in all publications effective 1 April 1982.

ADVANCE NOTICES

DELETIONS

The items listed below will be deleted from the Schedule of Pharmaceutical Benefits as from 1 April 1982, for the reasons shown.

- (a) Items which are seldom prescribed as pharmaceutical benefits and which are available from the Directors of Tuberculosis of the various State and Territory Health Authorities -

2817G Capreomycin, injection 1g (solvent required) (Caprocin)
 2335X Pyrazinamide, tablet 500mg (Zinamide)
 2009R Sodium Aminosalicylate, tablet 500mg (Pasalba)

- (b) 2298Y Clorexolone, tablet 50mg (Nefrolan)
 (Clorexolone 10mg and 25mg tablets which are considered to be the appropriate strengths for normal use, will remain available as benefits.)

- (c) Items which are prescribed infrequently and for which suitable alternatives are available -

2060K Succinylsulphathiazole, tablet 500mg
 1180D Chlorcyclizine, tablet 50mg
 2201W Bufexamac, cream 5%, 45g (Parfenac)
 2202X ointment 5%, 45g (Parfenac)
 2069X Sulphadiazine Sodium, injection 4ml

- (d) Items being discontinued by manufacturer -

1210Q Clemizole, tablet 20mg (Allercur)
 2235P Dimethicone, solution 9.84%, 200g aerosol spray (Rikospray Silicone)
 2688L Ferrous Fumarate, tablet 150mg (Fumiron)
 1476Q Hyaluronidase, injection 1,500 I.U. (solvent required) (Hyalase)
 2082N Sulphamethizole, tablet 100mg (Urolucosil)
 2802L Zinc Sulphate, eye drops 0.25%, APF 15ml

The following brands will be deleted from the Schedule of Pharmaceutical Benefits as from 1 April 1982.

Section 2

1184H Chloroquine, tablet equivalent to 150mg (approx.) Chloroquine base:
 Aralen WL
 1258F Cyanocobalamin, injection 100 micrograms in 1ml: Panalamine PT
 1262K 1mg in 1ml: Panalamine 1000 PT
 2420J Imipramine, tablet 10mg: Iramil KL
 2421K 25mg: Iramil KL
 1724R Oxytetracycline, capsule 250mg: Bramcycline MF
 1922E Prednisolone Sodium Phosphate, eye/ear drops 0.5%, 5ml: Codelsol MK
 2083P Sulphamethizole, tablet 250mg: Urolucosil WW

PHARMACEUTICAL BENEFITS

Explanatory Circular regarding the December 1981 edition of the Schedule of Pharmaceutical Benefits for Medical Practitioners.

The reprint of the Schedule will take effect on 1 December 1981 and all previous editions of the Schedule are cancelled.

Your attention is drawn to the following:—

Only certain categories of persons may receive pharmaceutical benefits free of charge. Details are contained in paragraphs 36 and 37 of Section 1 — Explanatory Notes (lemon pages) of this Schedule.

ANTI-TUBERCULOSIS DRUGS

Drugs used in the treatment of tuberculosis including rifampicin and ethambutol are available from the Directors of Tuberculosis of the various State and Territory Health Authorities. Inquiries regarding these drugs should be made to the Director of Tuberculosis in the relevant State or Territory.

SUMMARY OF CHANGES

ADDITIONS

NEW ITEMS

Section 2 — Restricted Benefits

Codeine Phosphate with Paracetamol, 8mg-500mg tablet (*Codalgin*, *Dymadon Co.*, *Panamax Co.*)

Section 2 — Unrestricted Benefits

Dipivefrin Hydrochloride, 0.1%, 10ml eye drops (*Propine*)

Gliclazide, 80mg tablet (*Diamicron*)

NEW FORMS AND STRENGTHS OF EXISTING ITEMS

Section 2 — Restricted Benefits

Penicillamine, 125mg capsule (*Cuprimine*)

Sodium Valproate, 500mg (enteric coated) tablet (*Epilim EC*); 200mg per 5ml, 200ml syrup (*Epilim*)

Trimipramine, 50mg capsule (*Surmontil*)

Section 2 — Unrestricted Benefits

Hypromellose, 1% eye drops, 15ml (*Methopt Forte*)

Isoprenaline Hydrochloride, 1 in 5 000, 1ml and 1 in 5 000, 5ml injections (*Isuprel*)

Levonorgestrel with Ethinyloestradiol, pack containing 6 tablets 50 micrograms–30 micrograms, 5 tablets 75 micrograms–40 micrograms and 10 tablets 125 micrograms–30 micrograms (*Triphasil, Triquilar*); pack containing 6 tablets 50 micrograms–30 micrograms, 5 tablets 75 micrograms–40 micrograms, 10 tablets 125 micrograms–30 micrograms and 7 inert tablets (*Triphasil 28, Triquilar ED*)

Miconazole Nitrate, 100mg pessary, pack of 7 (*Gyno-Daktarin 7, Monistat 7*)

Sulphamethizole, 1g tablet (*Urolucosil*)

DIFFERENTIAL QUANTITY LISTING

SECTION 1 — EXPLANATORY NOTES

PRESCRIBING OF BENEFITS — PROCEDURE BY DOCTORS

1. Pharmaceutical benefits which may be prescribed by doctors are listed in this book.

2. Ready prepared items are listed in Sections 2 and 3 of the Schedule of Benefits. Restrictions apply to the prescribing of some items in Section 2 and all the items in Section 3. Further details may be found in these notes — paragraphs 23–24.

3. The Schedule of ready prepared items includes the form, manner of administration and brand of these items which may be prescribed. Where the words ‘solvent required’ are included after the form, the item and a solvent may be prescribed as one benefit. In such cases, any listed brand of solvent may be ordered with the item. For clarity, such benefits should be written as one prescription, e.g. ‘Benzylpenicillin, Injection 300mg amp with 2ml water for injections’.

4. The Schedule also shows the maximum quantity and the number of repeats allowable for each item. Further details may be found in these notes — paragraphs 25–35.

5. The drugs which may be used in extemporaneous preparations are listed in Section 4 (Green Pages). Where a restriction applies to the use of a drug listed in this Section it is indicated against the item.

6. The following admixtures are not pharmaceutical benefits:—

- (a) the admixture of two or more ready prepared items listed in the Schedule of Benefits; or
- (b) the admixture of a ready prepared item and a drug or drugs listed in Section 4 of the Schedule of Benefits.

7. Formulae in common use are listed in Section 5 — Prescribers’ List (Green Pages).

8. A proprietary name index of ready prepared items is included after Section 5.

9. Symbols used in the Schedule of Benefits are explained on page 1, Section 2 (White Pages).

Explanatory and Warning Statements

10. The Use of 'Note' in Section 2 (White Pages) of the Schedule is reserved for explanatory purposes in relation to the prescribing of some drugs as pharmaceutical benefits.

11. The use of 'Caution' in Section 2 (White Pages) of the Schedule is reserved for the purpose of warning of adverse reactions or precautions associated with the use of a drug. The absence of a cautionary note does not necessarily imply that significant adverse reactions may not be encountered.

Prescriptions

12. A prescription ordering a pharmaceutical benefit may be written only for the medical treatment of the person named on the prescription and requiring treatment with that pharmaceutical benefit and must not be written for any other purpose. The prescription is valid only when it is written by a registered medical practitioner.

13. CARE MUST BE TAKEN TO COMPLY WITH THE PROVISIONS OF STATE LAW, PARTICULARLY IN REGARD TO THE PRESCRIBING OF DRUGS LISTED AS NARCOTIC, SPECIFIED OR RESTRICTED UNDER STATE LEGISLATION.

14. With regard to DRUGS OF ADDICTION, notification or approval of the appropriate State Health Authority or officer is required in all States for therapeutic use for a period exceeding two months (eight weeks in Victoria). Prior approval of the appropriate State Health Authority or officer is required in all States for the treatment of DRUG DEPENDENT PERSONS with ANY DRUG OF ADDICTION.

15. Medical practitioners are required by legislation under the National Health Act to observe the following rules when writing prescriptions for pharmaceutical benefits:—

- (a) Write the prescription in indelible form, i.e., ink or ball point pen in own handwriting (or with the approval of the Director-General otherwise record the prescription) either on the standard prescription form supplied by the Department or on paper as near as convenient to 18 cm × 12 cm. The name and address of the medical practitioner must be shown and 'N.H.S.' endorsed at the top.

(b) Write the prescription in duplicate marking the duplicate copy with the word 'Duplicate'. This is pre-printed on the standard prescription forms.

(c) Set out the name and address of the patient, and where the patient —

(i) is a pensioner who holds a Pensioner Health Benefits Card — write the pension number on the prescription. (A specimen Pensioner Health Benefits Card appears on page 14 of these notes.)

(ii) is a sickness benefit recipient who holds a valid Health Benefits Card — write the sickness benefit number on the prescription. (A specimen Health Benefits Card appears on page 15 of these notes.)

NOTE: Persons who are issued with a Health Care Card are NOT entitled to pharmaceutical benefits free of charge.

EXCEPT WHERE THE PROVISIONS OF STATE LAW REGARDING NARCOTIC, SPECIFIED OR RESTRICTED DRUGS REQUIRE THE ADDRESS TO BE WRITTEN, it is not necessary to write the address of the pensioner or sickness beneficiary on the prescription form.

(d) The pharmaceutical benefit must be identified in the prescription by such particulars as are necessary for the complete identification of that benefit.

(e) In the case of pharmaceutical benefits which are restricted in use, the prescription must be endorsed in the doctor's own handwriting with the words 'Specified Purpose'. Abbreviations such as 'Spec. Purp.' or 'S.P.' will be accepted. However, where a prescription is written for a pensioner for a drug which is restricted to pensioners it is not necessary to endorse the prescription 'Specified Purpose'.

(f) If the benefit is a single drug, the manner of administration must be indicated.

(g) When directing that the maximum quantity and repeats of a pharmaceutical benefit be supplied at the one time the prescription must be endorsed in own handwriting with the words ' Regulation 24 '. Further details are available in paragraphs 34-35.

(b) Date and sign the prescription.

16. A doctor may write up to three prescriptions on a single prescription form. Each prescription must be written legibly.

17. Prescriptions for pharmaceutical benefits for more than one person must not be written on the one prescription form.

18. A prescription is not a valid pharmaceutical benefit prescription if the medical practitioner —

(a) prescribes a pharmaceutical benefit for a person in respect of whom another prescription for the same benefit has been written on the same day by the same medical practitioner;

(b) prescribes on the one form a benefit that is a drug of addiction and another benefit and directs that the supply of either benefit is to be repeated. If no repeats of either item are ordered, the prescription may be accepted;

(c) prescribes a narcotic drug for the medical practitioner writing the prescription.

19. Where a medical practitioner writes a prescription for a pharmaceutical benefit, a formulation of which is available as a ready prepared pharmaceutical benefit and does not specify a brand, payment to the chemist is made on the basis of the lowest priced brand of the ready prepared benefit item which is listed. This also applies if the preparation is, or the ingredients are, available for use in dispensing extemporaneously prepared benefits (i.e. listed in Section 4).

20. Where, in a prescription for a pharmaceutical benefit which is not listed as a ready prepared pharmaceutical benefit, a medical practitioner states a monograph title of a formulation but does not specify a formulary, payment to the chemist is made on the basis of the formula, if any, specified in the Prescribers' List (Section 5). Should there be no formula specified in the Prescribers' List, payment to the chemist is made on the basis of the precedence of formularies accorded by State legislation.

21. To avoid confusing patients and the dispensing chemist, doctors should not write prescriptions for pharmaceutical benefits and non-pharmaceutical benefits on the one form. Where the prescription is for a restricted benefit and the patient is not suffering from one of the allowable conditions the doctor should write the prescription on a private prescription form, or if he does use an N.H.S. standard prescription form, delete N.H.S. from the top of the form.

Manner of Administration

22. Where a particular manner of administration is indicated in the Schedule, the item may not be prescribed as a pharmaceutical benefit for administration in any other way, e.g., an ophthalmic preparation may not be prescribed for topical use.

Restrictions

23. Certain pharmaceutical benefits may only be prescribed for a particular class of person, for a specified purpose, disease or condition and, where specified with the written authority of the Commonwealth Director of Health in the State concerned. Full particulars of these items and their restrictions are printed in red in Sections 2 and 3 (White Pages) of the Schedule. It is not necessary for the particular restriction to be identified on the prescription. Where in section 2 a benefit is restricted 'pensioners only', pensioner, for this purpose shall include:—

- (i) a pensioner who holds a valid Pensioner Health Benefits card;
- (ii) a sickness benefit recipient who holds a valid Health Benefits card.

NOTE: Persons who are issued with a Health Care Card are NOT included in the 'pensioner' category.

24. Pharmaceutical benefits which are available for use for colostomy and ileostomy conditions as well as pharmaceutical benefits which are available for use by paraplegic and quadriplegic patients are listed in Section 3 of the Schedule.

Maximum Quantities and Repeats

25. For ready prepared preparations, the allowable maximum quantity and number of repeats are shown in the second and third columns of Sections 2 and 3. For other preparations, details are set out in the Table of Maximum Quantities and Repeats (Green Pages).

26. Where the maximum quantity of an item is marked with a double dagger (‡), the maximum quantity has been determined as a single pack. In such instances, chemists are required to supply unbroken packs (see page 1, Section 2 White Pages). These items should be prescribed in the standard pack sizes.

27. For other items it is not necessary to prescribe the maximum quantity either for the original or for a repeat supply, if the medical practitioner considers a lesser quantity is sufficient for the patient's needs.

28. If a medical practitioner requires a prescription to be repeated, he must show the quantity to be supplied and the number of repeats. It is not necessary for the maximum quantity to be ordered before the supply can be repeated. Repeats may be for any quantity up to the maximum, irrespective of whether the original supply is for an equal, greater or lesser quantity.

29. The relevant maximum quantity and number of repeats are not to be exceeded, unless the prescription is accompanied by a written authority from the Commonwealth Director of Health (see paragraphs 31-33).

30. The normal maximum quantity and number of repeats for pharmaceutical benefit items are recommended by the Pharmaceutical Benefits Advisory Committee (PBAC). For the treatment of an acute condition the PBAC recommends a maximum quantity which will provide sufficient medication for the treatment of the condition; for the treatment of chronic conditions the PBAC recommends sufficient, at normal dosage levels, for one month's treatment and two repeats.

31. However, special provisions exist to assist chronically ill patients who require large quantities of drugs and/or continuous treatment. In most cases under these provisions a doctor may, if he considers it to be in his patient's interest, apply to the Commonwealth Director of Health in his State for authority to prescribe a quantity in excess of the listed maximum quantity and/or number of repeats.

32. Normally a quantity sufficient for approximately three months' treatment at the higher dosage levels, i.e. one month's treatment with two repeats, may be authorised by the Director. For certain items the

Pharmaceutical Benefits Advisory Committee has recommended that authorities may be granted to provide for up to six months' treatment i.e. one month's treatment with five repeats. A list of these items appears on pages 24-25. One patient contribution fee is payable for each supply of the benefit so authorised.

33. For restricted drugs, where the written authority of the Commonwealth Director of Health is required to prescribe, the provisions of paragraph 32 will apply except where otherwise indicated in the individual entry in Section 2 of the Schedule. Where the number of repeats for such a drug is not specified in Section 2, the prescriber should indicate the number of repeats required in accordance with paragraph 32.

Regulation 24

34. Generally, a pharmaceutical benefit may not be supplied to the same person more than once on any one day. However, a doctor may direct that the original supply and the repeat supplies of a benefit ordered in a prescription be supplied at the one time, provided he is satisfied that —

- (a) the maximum quantity specified for the benefit is insufficient for the medical treatment of the person for whom it is prescribed;
- (b) that person is suffering from a chronic illness or is resident in a place remote from the nearest approved pharmaceutical chemist; and
- (c) that person, without great hardship, could not obtain the pharmaceutical benefit on separate occasions.

The doctor must endorse the prescription 'Regulation 24' as certification that the above conditions have been satisfied.

35. Where a prescription is endorsed 'Regulation 24' the dispensing chemist should make the relevant prescribed charge for the original and the same charge for each repeat that would normally be needed to make up the total supplies, for example, if the prescription orders two repeats, three patient contributions would be charged to a patient other than an eligible pensioner in possession of a Pensioner Health Benefits Card or a sickness beneficiary in possession of a valid Health Benefits Card.

Eligibility of patients to receive pharmaceutical benefits free of charge

36. A variety of cards is issued to pensioners and other groups in the community but only the following persons are entitled to receive pharmaceutical benefits free of charge under the Pharmaceutical Benefits Scheme:—

- (i) an eligible pensioner holding a valid Pensioner Health Benefits Card (see facsimile on page 14) and his or her dependants; or
- (ii) a sickness benefit recipient who holds a valid Health Benefits Card (see facsimile on page 15) and his or her dependants.

NOTE: Persons who are issued with a Health Care Card are NOT entitled to pharmaceutical benefits free of charge.

37. Pension numbers as shown on Pensioner Health Benefits Cards or sickness benefit numbers as shown on Health Benefits Cards are the only numbers acceptable for prescription endorsement purposes.

Patient Contribution

38. The dispensing chemist may in respect of each supply by him whether on a prescription or repeat authorisation, charge the person to whom the pharmaceutical benefit is supplied an amount not exceeding \$3.20 in respect of general patients. A charge is not to be made for the supply of a pharmaceutical benefit on a prescription on which the prescribing medical practitioner has written the pension number or sickness benefit number shown on a valid Health Benefits Card.

39. A prescription, other than a prescription for an eligible pensioner or a sickness beneficiary in possession of a valid Health Benefits Card, written for a benefit for which the dispensed price at the date of supply is equal to or less than \$3.20 is not a prescription for a pharmaceutical benefit. This also applies to prescriptions endorsed 'Regulation 24' (see paragraphs 34, 35), for which the price of the total quantity of the benefit supplied is less than the authorised charge specified in paragraph 35.

Authority to Prescribe

40. Where the written authority of the Commonwealth Director of Health is required to prescribe:—

- (i) restricted drugs (paragraphs 23, 24); or
- (ii) increased maximum quantities (paragraphs 31–33); and/or
- (iii) increased number of repeats (paragraphs 31–33)

application should be made on the combined application/authority prescription form (Form PB86). The 'office copy' together with the completed original and duplicate of the authority prescription are to be forwarded to the Director. The doctor's copy should be retained.

41. The original and duplicate authority prescription, when authorised, can be returned to the doctor or sent direct to the patient. If the application can be approved after some amendment, an Authority to Prescribe (Form PB15) will be forwarded to the doctor, specifying what has been approved. A new prescription should then be written on the form PB15, the original and duplicate sent to the patient, and the triplicate (green copy) retained by the doctor.

Urgent Cases

42. In urgent cases, a chemist may supply a benefit before the prescription is surrendered to him, if the doctor communicates the prescription to the chemist by telephone or other means. *In such cases the doctor must write out the prescription and forward it to the approved chemist who made the supply within 24 hours of such communication.* This provision does not apply to prescriptions for supply by chemists where the law of the State in which the chemist's premises are situated requires the prescription to be in writing.

43. The provision for communication of prescriptions in urgent cases applies also to those drugs for which the written authority of the Director of Health is necessary for supply as a pharmaceutical benefit (see paragraph 23). In such cases the doctor must first obtain advice from the Commonwealth Director of Health in the particular State, by telephone or other means, that the authority will be issued, and notify the chemist accordingly when communicating the prescription. *The doctor must subsequently submit a form PB86, obtain the written authority and forward it, within 24 hours of its receipt, to the approved chemist who supplied the benefit.*

Emergency Drug (Doctor's Bag) Supplies

44. Certain pharmaceutical benefits are provided free to doctors for emergency use. These emergency supplies are not available to ships' doctors. The patient is not required to make any payment when benefits are made available to him from these supplies.

45. Supplies of these drugs may be obtained from an approved chemist upon the production of an official Emergency Drug (Doctor's Bag) Order Form (Form PB7) in duplicate, signed by the doctor personally. Each order form is valid during the month printed thereon and each doctor may obtain the benefits not more often than once per month. (Doctors approved to supply pharmaceutical benefits under section 92 of the National Health Act are to use Form PB7a which must not be presented to an approved chemist for supplies. Special instructions are issued to these doctors.)

46. The maximum quantity listed against the Emergency Drug items permitted to be obtained at the one time may be ordered provided the quantity of the item that the doctor has on hand is less than the maximum quantity.

47. A doctor may also specify on the order form any listed brand of a benefit. If this brand is not available, the doctor will be requested by the approved chemist to specify in the order another listed brand which is available, and to initial the alteration. The doctor issuing the order form must sign and date the form. A receipt for the benefits supplied on this order form must be signed by either the doctor himself or by a person authorised by him.

Enquiries

48. Any enquiries regarding the Pharmaceutical Benefits Scheme or requests for Departmental publications or stationery other than N.H.S. standard prescription pads should be made to the Commonwealth Director of Health in the capital city of your State. Orders for N.H.S. prescription pads should be forwarded to the Director-General of Health, Canberra.

Pensioner Health Benefits Card

A facsimile of the Pensioner Health Benefits Card is reproduced below. This card is valid only during the year printed thereon and should be sighted by the prescriber to enable endorsement of the correct pension number on the prescription (see paragraph 15 (c)).

A pensioner Health Benefits Card similar in appearance to that produced below is issued to service pensioners by the Department of Veterans' Affairs. This card also entitles the holder and his or her dependants to receive pharmaceutical benefits free of charge.

PENSIONER HEALTH BENEFITS CARD

1982

IN THE FOLLOWING CIRCUMSTANCES, this card must be returned to the Department of Social Security:

- cancellation of pension or allowance
- death of pensioner
- marriage or re-marriage
- upon request

**ITEMS FOR WHICH AN AUTHORITY TO PRESCRIBE
MAY BE GRANTED TO PROVIDE UP TO SIX MONTHS'
THERAPY**

(i.e. one month's treatment with five repeats)

- Amantadine Hydrochloride, capsule 100mg
Amino Acid Formula without Phenylalanine, powders 250g (PK AID I)
and 250g (PK AID II); food supplement powder 500g
Azathioprine, tablet 50mg
Baclofen, tablets 10mg and 25mg
Benztropine, tablet 2mg (only for the treatment of non-drug-induced
parkinsonism)
Calcium, compound effervescent tablet equivalent to 500mg calcium;
compound effervescent tablet equivalent to 1g calcium (provided
that for any such authority, the maximum quantity and number of
repeats shown in Section 2 is not exceeded)
Carbamazepine, tablets 100mg and 200mg
Carbimazole, tablet 5mg
Cholestyramine, powder, 9g sachet (equivalent to 4g cholestyramine), 50
Clofibrate, capsule 500mg
Clonazepam, tablets 500 micrograms and 2mg
Cortisone Acetate, tablets 5mg and 25mg
Dexamphetamine, tablet 5mg
Dihydratachysterol, capsule 125 micrograms
Dipyridamole, tablet 100mg
Ergocalciferol, tablet 1.25mg; oral solution 15mg in 1.5ml alcoholic
solution
Ethosuximide, capsule 250mg; paediatric syrup 250mg per 5ml, 250ml
Fludrocortisone Acetate, tablet 100 micrograms
Levodopa, tablets 100mg, 250mg and 500mg; capsules 100mg, 250mg and
500mg
Levodopa with Benserazide, capsules 100mg-25mg and 200mg-50mg
Levodopa with Carbidopa, tablets 100mg-10mg and 250mg-25mg
Lithium Carbonate, tablets 250mg and 400mg (sustained release)
Methsuximide, capsule 300mg
Methylphenobarbitone, tablets 30mg, 60mg and 200mg

Mineral Mixture, powder 250g
 Nitrazepam, tablet 5mg (only for the treatment of myoclonic epilepsy)
 Oxy metholone, tablets 50mg and 100mg
 Pancreatin Enzyme, tablet 325mg; powder 250g; capsule 305mg
 Pancrelipase, capsule 300mg
 Penicillamine, tablets 125mg and 250mg; capsules 125mg and 250mg
 Phenobarbitone, tablets 15mg, 30mg, 60mg and 100mg
 Phenoximide, capsule 500mg
 Phenylalanine Low Content Formula, powder 2.5lb
 Phenytoin, tablet 50mg; paediatric suspension 30mg per 5ml, 500ml
 Phenytoin Sodium, tablet 100mg; capsules 30mg and 100mg
 Prednisolone, tablets 1mg, 5mg and 25mg
 Primidone, tablet 250mg
 Propantheline Bromide, tablet 15mg
 Propylthiouracil, tablets 25mg and 50mg
 Protein Hydrolysate Formula without Phenylalanine, powder, 200g sachet
 Sodium Cromoglycate, capsule 20mg (oral inhalation)
 Sulthiame, tablets 50mg and 200mg
 Thiopropazate, tablet 5mg
 Triglycerides, Medium Chain, compound powder 450g; protein hydrolysate compound powder 454g
 Vitamin Supplement, tablet; liquid 100ml

Tetanus Vaccine Adsorbed	0.5ml	Ampoule	10

NOTE: Only those brands of benefits listed in Section 2 (white pages) may be ordered on a Doctor's Bag Order Form.

SECTION 2 - SCHEDULE OF BENEFITS

SYMBOLS USED IN THE SCHEDULE

- (a) An asterisk (*) in front of a restriction indicates an additional or amended purpose in this issue.
- (b) A double dagger (‡) in the maximum quantity column indicates an item for which the maximum quantity has been specially determined to correspond to the manufacturer's pack and the manufacturer's standard pack should be supplied.
- (c) A gauge sign (#) against the price of an item indicates that the product is not preconstituted.
- (d) Where a STATE is indicated after the manufacturer's code, that brand may be available only in the State indicated. N.S.W. - (N); Vic. - (V); Qld. - (Q); S.A. - (S); W.A. - (W); Tas. - (T).

A straight line is drawn between entries for different forms and strengths of an item to clearly indicate the different restrictions which apply to these various forms and strengths.

Attention is drawn to paragraph 15(e) of the explanatory notes which provides for endorsement by the prescribing doctor of prescriptions for pharmaceutical benefits with the words "specified purpose". Abbreviations such as "Spec. Purp." or "S.P." will be accepted. Where a prescription is written for a pensioner for a drug which, although restricted, is not restricted as to a disease for a pensioner, the pension number is sufficient identification and it is not necessary to endorse the prescription "specified purpose".

Except where otherwise indicated, the maximum quantity and/or number of repeats in respect of an item shown in the Schedule may be varied by the Director of Health when issuing an authority prescription (Form PB86) or an authority to prescribe (Form PB15). The quantity and number of repeats shown on the authority shall be supplied. (See paragraphs 31 and 32 of Section 1 - Explanatory Notes (Lemon pages)).

CHOLERA VACCINE Injection 1ml	2	..	4.73	CS	
CHOLESTYRAMINE Authority required. Bile salt malabsorption associated with ileal resection or proven ileal disease; Pruritus associated with partial biliary obstruction not respond- ing to other therapy; *Hypercholesterolaemia. NOTE: Hypercholesterolaemia means an initial fasting serum cholesterol level of at least 7mmol/L following dietary therapy for three months. An authority for a second or subsequent course (up to 6 months) of treatment for hypercholesterolaemia will be granted only where there is a fall of at least 1mmol/L in serum cholesterol since commencement of cholestyramine therapy. A recent serum cholesterol level and the date of assessment are to be provided with each application for authority. Cholestyramine is preferred to clofibrate if fasting serum triglyceride is less than 3mmol/L.					
Powder, 9g sachet (equivalent to 4g cholestyramine), 50	2	..	34.77	Questran	MJ

CIMETIDINE					
Authority required. Gastric ulcer, confirmed by radiology, endoscopy or surgery.					
NOTE: Applications for authority must state the date of barium meal, endoscopy or surgery (procedure must have been within three months of application). Not more than 300 tablets will be available on authority in any 12 months period. Increased maximum quantities and/or repeats for treatment of gastric ulcer will not be authorised.					
Authority required. Duodenal ulcer, confirmed by radiology, endoscopy or surgery.					
NOTE: Initial application for authority must state the date of barium meal, endoscopy or surgery. Not more than three authorities (each for 300 tablets) will be available in any 12 months period. Increased maximum quantities and/or repeats for treatment of duodenal ulcer will not be authorised.					
Authority required. Zollinger-Ellison syndrome, proven by investigation.

SECTION 5 — PRESCRIBERS' LIST

PRESCRIPTION

CREAMS

(Maximum Quantity 100g and 1 Repeat)

ALUMINIUM ACETATE, OILY (APF)

Aluminium Acetate Solution								5	ml
Zinc Oxide								20	g
Wool Fat								25	g
Arachis Oil								25	ml
Purified Water, freshly boiled and cooled								27	ml

AQUEOUS (APF, BP)

Emulsifying Ointment								30	g
Chlorocresol								100	mg
Purified Water, freshly boiled and cooled to								100	g

BUFFERED, AQUEOUS (APF)

Sodium Phosphate								2.5	g
Citric Acid Monohydrate								500	mg
Chlorocresol								100	mg
Glycerol								5	ml
Emulsifying Ointment								30	g
Purified Water, freshly boiled and cooled to								100	g

CALAMINE, AQUEOUS (APF)

Calamine								4	g
Zinc Oxide								3	g
Cetomacrogol Emulsifying Wax								6	g
Arachis Oil								30	g
Purified Water, freshly boiled and cooled to								100	g

CALAMINE, OILY (APF)

Calamine								32	g
Oleic Acid								0.5	ml
Arachis Oil								21.5	ml
Wool Fat								17.5	g
Calcium Hydroxide Solution								30.5	ml

PRESCRIPTION

CREAMS — *continued*

CETOMACROGOL, AQUEOUS (APF)

Cetomacrogol Emulsifying Wax						15	g
Liquid Paraffin						10	g
White Soft Paraffin						10	g
Chlorocresol						100	mg
Propylene Glycol						5	ml
Purified Water, freshly boiled and cooled to						100	g

CETRIMIDE, AQUEOUS (APF)

Cetrimide						500	mg
Chlorocresol						100	mg
Cetostearyl Alcohol						5	g
Liquid Paraffin						50	g
Purified Water, freshly boiled and cooled to						100	g

CHLORHEXIDINE, AQUEOUS (APF) (Chlorhexidine 1% BP)

Chlorhexidine Gluconate Solution						5	ml
Cetomacrogol Emulsifying Wax						25	g
Liquid Paraffin						10	g
Purified Water, freshly boiled and cooled to						100	g

COAL TAR and ZINC, OILY (APF)

Coal Tar, BPC						1	g
Castor Oil						1	g
Zinc Cream Oily, APF						98	g

COLD (APF)

White Beeswax						17	g
Liquid Paraffin						45	g
Borax						1	g
Purified Water, freshly boiled and cooled						37	ml

GLYCEROL, OILY (APF)

Glycerol						20	g
Calcium Hydroxide Solution						32	ml
Arachis Oil						22	g
Wool Fat						26	g

ICHTHAMMOL and ZINC, OILY (APF)

Ichthammol						5	g
Wool Fat						15	g
Zinc Cream Oily, APF						80	g

PRESCRIPTION

CREAMS — *continued*

OILY (APF)

Wool Alcohols Ointment, APF					50	g
Purified Water, freshly boiled and cooled					50	ml

SALICYLIC ACID and RESORCINOL, AQUEOUS (APF)

Salicylic Acid						2	g
Resorcinol						2	g
Aqueous Cream, APF to						100	g

SALICYLIC ACID and SULPHUR, AQUEOUS (APF)

Salicylic Acid							2	g
Precipitated Sulphur							2	g
Spike Lavender Oil							0.5	ml
Aqueous Cream, APF to							100	g

ZINC, OILY (APF)

Zinc Oxide								32	g
Oleic Acid								0.5	ml
Arachis Oil								21.5	ml
Wool Fat								17.5	g
Calcium Hydroxide Solution								30.5	ml

ZINC, WEAK (PL)

Zinc Oxide								5	g
Oleic Acid								0.5	ml
Arachis Oil								38.5	ml
Wool Fat								25	g
Calcium Hydroxide Solution								34.5	ml

DUSTING POWDER

(Maximum Quantity 100g and 1 Repeat)

ZINC, STARCH and TALC (APF)

Zinc Oxide								25	g
Starch								25	g
Purified Talc, sterilised								50	g

EAR DROPS

(Maximum Quantity 15ml and 2 Repeats)

ALUMINIUM ACETATE (APF)

Aluminium Acetate Solution								9	ml
Purified Water, freshly boiled and cooled to								15	ml

PRESCRIPTION

EAR DROPS — *continued*

CHLORHEXIDINE (APF)

Chlorhexidine Acetate								7.5	mg
Purified Water, freshly boiled and cooled to								15	ml

ICHTHAMMOL (APF)

Ichthammol								10	g
Glycerol								90	g

PHENYLMERCURIC NITRATE (APF)

Phenylmercuric Nitrate								15	mg
Propylene Glycol								7.5	ml
Purified Water, freshly boiled and cooled to								15	ml

SALICYLIC ACID (APF)

Salicylic Acid								300	mg
Alcohol (90 per cent)								7.5	ml
Purified Water, freshly boiled and cooled to								15	ml

SODIUM BICARBONATE (APF, BP)

Sodium Bicarbonate								750	mg
Glycerol								4.5	ml
Purified Water, freshly boiled and cooled to								15	ml

SPIRIT (APF)

Alcohol (90 per cent)								7.5	ml
Purified Water, freshly boiled and cooled to								15	ml

INHALATIONS

(Maximum Quantity 50 ml and 1 Repeat)

BENZOIN (PL)

Benzoin Tincture, Compound								50	ml
----------------------------	------	------	------	------	------	------	------	----	----

BENZOIN, COMPOUND (PL)

Menthol								1	g
Oil of Siberian Fir								2.5	ml
Benzoin Tincture, Compound to								50	ml

PRESCRIPTION

INHALATIONS — *continued*

BENZOIN and MENTHOL (PL) (APF)

Menthol										1	g
Benzoin Tincture, Compound to										50	ml

MENTHOL and EUCALYPTUS (BP)

Menthol										1	g
Eucalyptus Oil										5	ml
Light Magnesium Carbonate										3.5	g
Purified Water to										50	ml

MENTHOL and PINE (APF)

Menthol										1	g
Pumilio Pine Oil										2.5	ml
Alcohol (90 per cent) to										50	ml

LINCTUS

(Maximum Quantity 100 ml and 2 Repeats)

SIMPLE (APF)

Citric Acid Monohydrate										125	mg
Concentrated Chloroform Water										0.15	ml
Amaranth Solution										0.1	ml
Concentrated Anise Water										0.05	ml
Syrup to										5	ml

LINIMENTS

(Maximum Quantity 100 ml and 1 Repeat)

CAMPHOR (APF)

Camphor										20	g
Arachis Oil										80	g

METHYL SALICYLATE, COMPOUND (APF)

Menthol										4	g
Eucalyptus Oil										10	ml
Methyl Salicylate										25	ml
Arachis Oil to										100	ml

PRESCRIPTION

LOTIONS

(Maximum Quantity 200 ml and 2 Repeats)

CALAMINE (APF, BP)

Calamine										30	g
Zinc Oxide										10	g
Bentonite, sterilised										6	g
Sodium Citrate										1	g
Liquefied Phenol										1	ml
Glycerol										10	ml
Purified Water, freshly boiled and cooled to										200	ml

CALAMINE, OILY (APF, BP)

Calamine										10	g
Wool Fat										2	g
Arachis Oil										100	ml
Oleic Acid										1	ml
Calcium Hydroxide Solution to										200	ml

RESORCINOL, COMPOUND (APF)

Resorcinol										5	g
Solvent Ether										5	ml
Castor Oil										5	ml
Spike Lavender Oil										0.2	ml
Alcohol (90 per cent) to										200	ml

SULPHURATED (APF)

Zinc Sulphate										10	g
Sulphurated Potash										10	g
Acetone										10	ml
Glycerol										10	ml
Spike Lavender Oil										0.4	ml
Purified Water, freshly boiled and cooled to										200	ml

PRESCRIPTION

MIXTURES

(Maximum Quantity 200 ml and 4 Repeats)

ASPIRIN (APF)

Aspirin									500	mg
Compound Tragacanth Powder									250	mg
Orange Syrup, APF									1	ml
Concentrated Chloroform Water									0.25	ml
Purified Water to									10	ml

CHALK and KAOLIN (APF)

Chalk									1.5	g
Light Kaolin or Light Kaolin (Natural)									2.5	g
Alum									10	mg
Concentrated Chloroform Water									0.25	ml
Purified Water to									10	ml

CHLORAL (APF)

Chloral Hydrate									1	g
Orange Syrup, APF									1	ml
Concentrated Chloroform Water									0.25	ml
Purified Water to									10	ml

FERROUS SULPHATE (APF)

Ferrous Sulphate									300	mg
Ascorbic Acid									10	mg
Orange Syrup, APF									0.5	ml
Concentrated Chloroform Water									0.25	ml
Purified Water to									10	ml

GENTIAN, ACID (PL)

Concentrated Compound Gentian Infusion									1	ml
Dilute Hydrochloric Acid									0.5	ml
Concentrated Chloroform Water									0.25	ml
Purified Water to									10	ml

PRESCRIPTION

MIXTURES — *continued*

GENTIAN, ALKALINE (APF, BP)

Concentrated Compound Gentian Infusion				1	ml
Sodium Bicarbonate				500	mg
Concentrated Chloroform Water				0.25	ml
Purified Water to				10	ml

IPECACUANHA and SQUILL (APF)

Synonym: Cough Mixture

Ipecacuanha Tincture				0.25	ml
Compound Camphor Spirit				1	ml
Tolu Syrup				1	ml
Squill Oxymel				1	ml
Concentrated Chloroform Water				0.15	ml
Concentrated Anise Water				0.15	ml
Purified Water to				10	ml

KAOLIN and OPIUM (APF)

Light Kaolin or Light Kaolin (Natural)				2.5	g
Alum				10	mg
Opium Tincture				0.5	ml
Concentrated Chloroform Water				0.25	ml
Purified Water to				10	ml

MAGNESIUM TRISILICATE (APF)

Magnesium Trisilicate				1	g
Calcium Carbonate				500	mg
Light Magnesium Carbonate				500	mg
Concentrated Peppermint Water				0.25	ml
Concentrated Chloroform Water				0.25	ml
Purified Water to				10	ml

POTASSIUM CHLORIDE (APF)

Potassium Chloride				1	g
Lemon Syrup, APF				2	ml
Concentrated Chloroform Water				0.25	ml
Purified Water to				10	ml

PRESCRIPTION

MIXTURES — *continued*

POTASSIUM CITRATE (APF)

Potassium Citrate								2	g
Citric Acid Monohydrate								400	mg
Lemon Syrup, APF								1	ml
Concentrated Chloroform Water								0.2	ml
Purified Water to								10	ml

POTASSIUM CITRATE and SODIUM BICARBONATE (APF)

Potassium Citrate								1	g
Sodium Bicarbonate								750	mg
Orange Syrup, APF								1	ml
Concentrated Chloroform Water								0.2	ml
Purified Water to								10	ml

POTASSIUM IODIDE and STRAMONIUM, COMPOUND (APF)

Synonym: Lobelia and Stramonium Mixture

Potassium Iodide								250	mg
Stramonium Tincture								0.5	ml
Lobelia Tincture, Ethereal								0.5	ml
Aromatic Ammonia Spirit								0.5	ml
Liquorice Liquid Extract								0.5	ml
Concentrated Chloroform Water								0.25	ml
Purified Water to								10	ml

SODIUM CITRATE (APF)

Sodium Citrate								2	g
Citric Acid Monohydrate								400	mg
Lemon Syrup, APF								1	ml
Concentrated Chloroform Water								0.2	ml
Purified Water to								10	ml

SODIUM SALICYLATE (APF)

Sodium Salicylate								1	g
Liquorice Liquid Extract								0.25	ml
Concentrated Chloroform Water								0.25	ml
Purified Water to								10	ml

PRESCRIPTION

NASAL INSTILLATIONS

(Maximum Quantity 15 ml and 2 Repeats)

DEXTROSE and GLYCEROL (APF)

Dextrose										3	g
Glycerol to										15	ml

EPHEDRINE (APF)

Ephedrine Hydrochloride										150	mg
Chlorbutol										75	mg
Sodium Chloride										75	mg
Propylene Glycol										0.75	ml
Purified Water, freshly boiled and cooled to										15	ml

OINTMENTS

(Maximum Quantity 100 g and 1 Repeat)

BENZOIC ACID, COMPOUND (APF, BP)

Benzoic Acid in fine powder										6	g
Salicylic Acid in fine powder										3	g
Emulsifying Ointment										91	g

EMULSIFYING (APF, BP)

Emulsifying Wax										30	g
White Soft Paraffin										50	g
Liquid Paraffin										20	g

RESORCINOL and SULPHUR, COMPOUND (APF)

Resorcinol										2	g
Precipitated Sulphur										3	g
Salicylic Acid										1	g
White Simple Ointment										94	g

SALICYLIC ACID (APF)

Salicylic Acid										2	g
Wool Alcohols Ointment, APF										98	g

PRESCRIPTION

OINTMENTS — *continued*

SIMPLE (APF, BP)

(White Simple Ointment)

Wool Fat										5	g
Hard Paraffin										5	g
Cetostearyl Alcohol										5	g
White Soft Paraffin										85	g

ZINC and CASTOR OIL (APF, BP)

Zinc Oxide										7.5	g
Castor Oil										50	g
Cetostearyl Alcohol										2	g
White Beeswax										10	g
Arachis Oil										30.5	g

ZINC OXIDE (APF)

(Zinc BP)

Zinc Oxide										15	g
White Simple Ointment										85	g

PAINTS

(Maximum Quantity 25 ml and 1 Repeat)

ICHTHAMMOL (APF)

Ichthammol										10	g
Glycerol										90	g

MAGENTA (APF)

Magenta										100	mg
Resorcinol										2	g
Phenol										1	g
Boric Acid										200	mg
Alcohol (90 per cent)										2.125	ml
Acetone										1	ml
Purified Water to										25	ml

PRESCRIPTION

PAINTS — *continued*

PODOPHYLLIN (APF)

Podophyllum Resin									1.25	g
Benzoin Tincture, Compound to									25	ml

PODOPHYLLIN, STRONG (APF)

(Podophyllin, Compound BP)

Podophyllum Resin									3.75	g
Benzoin Tincture, Compound to									25	ml

SALICYLIC ACID (APF)

Salicylic Acid									2.5	g
Flexible Collodion to									25	ml

PASTES

(Maximum Quantity 100 g and 1 Repeat)

COAL TAR and ZINC (APF)

Coal Tar									1	g
Castor Oil									1	g
Compound Zinc Paste									98	g

DITHRANOL and ZINC (APF)

Dithranol									100	mg
Zinc and Salicylic Acid Paste									99.9	g

TITANIUM DIOXIDE (APF)

Titanium Dioxide									20	g
Calamine									25	g
Light Kaolin or Light Kaolin (Natural)									10	g
Bentonite, sterilised									1	g
Chlorocresol									100	mg
Glycerol									15	g
Purified Water, freshly boiled and cooled to									100	g

PRESCRIPTION

PASTES — *continued*

ZINC, COMPOUND (APF, BP)

Zinc Oxide									25	g
Starch									25	g
White Soft Paraffin									50	g

ZINC and SALICYLIC ACID (APF)

Salicylic Acid									2	g
Liquid Paraffin									2	g
Compound Zinc Paste									96	g

POWDER

(Maximum Quantity 100 g and 2 Repeats)

MAGNESIUM and CALCIUM CARBONATE (APF)

Calcium Carbonate									25	g
Heavy Magnesium Carbonate									25	g
Magnesium Trisilicate									50	g
Peppermint Oil									0.2	ml

SECTION 5 — PRESCRIBERS' LIST

CHILDREN'S SECTION

PRESCRIPTION

MIXTURES

(Maximum Quantity 100ml and 4 Repeats)

ASPIRIN (APF)

Aspirin									150	mg
Compound Tragacanth Powder									100	mg
Raspberry Syrup									1	ml
Concentrated Chloroform Water									0.1	ml
Purified Water to									5	ml

BELLADONNA (APF)

Belladonna Tincture									0.1	ml
Orange Syrup, APF									1	ml
Glycerol									1	ml
Benzoic Acid Solution									0.1	ml
Purified Water to									5	ml

CALCIUM and KAOLIN (APF)

Calcium Carbonate									500	mg
Light Kaolin or Light Kaolin (Natural)									1	g
Alum									5	mg
Concentrated Chloroform Water									0.1	ml
Purified Water to									5	ml

CHLORAL (APF)

Chloral Hydrate									250	mg
Orange Syrup, APF									2	ml
Concentrated Chloroform Water									0.1	ml
Purified Water to									5	ml

CHILDREN'S SECTION

MIXTURES — *continued*

FERROUS GLUCONATE (APF)

Ferrous Gluconate									200	mg
Dextrose									500	mg
Orange Syrup, APF									1	ml
Citric Acid Monohydrate									25	mg
Concentrated Chloroform Water									0.1	ml
Purified Water to									5	ml

FERROUS SULPHATE (APF)

Ferrous Sulphate									100	mg
Ascorbic Acid									5	mg
Orange Syrup, APF									1	ml
Concentrated Chloroform Water									0.1	ml
Purified Water to									5	ml

IPECACUANHA and SQUILL (APF)

Ipecacuanha Tincture									0.1	ml
Compound Camphor Spirit									0.25	ml
Squill Oxymel									1	ml
Purified Water to									5	ml

POTASSIUM CITRATE (APF)

Potassium Citrate									1	g
Citric Acid Monohydrate									200	mg
Lemon Syrup, APF									1	ml
Concentrated Chloroform Water									0.1	ml
Purified Water to									5	ml

POTASSIUM IODIDE (APF)

Potassium Iodide									100	mg
Liquorice Liquid Extract									0.25	ml
Aromatic Ammonia Spirit									0.1	ml
Concentrated Chloroform Water									0.1	ml
Purified Water to									5	ml

CHILDREN'S SECTION

PREScription

MIXTURES — *continued*

SODIUM CITRATE (APF)

Sodium Citrate									1	g
Citric Acid Monohydrate									200	mg
Lemon Syrup, APF									1	ml
Concentrated Chloroform Water									0·1	ml
Purified Water to									5	ml

PROPRIETARY INDEX

PART 1 PROPRIETARY NAMES INDEX

PART 2 TRADE NAMES INDEX

ABBREVIATIONS

(C & I) Preparations available for colostomy and ileostomy use

(P & Q) Preparations available for use by paraplegic and quadriplegic patients

Proprietary Name	Manufacturer	Name
Abbccillin	AB	Penicillin Products
Abbccillin-V	AB	Phenoxymethylpenicillin
Abbccillin-VK	AB	Phenoxymethylpenicillin
Acetopt	SI	Sulphacetamide Sodium
Achromycin	LE	Tetracycline
Achromycin V	LE	Tetracycline (Buffered)
Achrostatin	LE	Tetracycline with Nystatin
Actal	WL	Aluminium Hydroxide Dried
Actidil	BW	Triprolidine
Actrapid M.C. Novo	NO	Insulin Neutral
Actuss	SI	Pholcodine
Adacillin	NN	Phenoxymethylpenicillin
Adacor	NN	Hydrocortisone
Adaphol	NN	Pholcodine
Adaquin	NN	Quinine Sulphate
Adasone	NN	Prednisone
Adnisolone	NN	Prednisolone
Adroyd	PD	Oxymetholone
Aerocortin	BW	Polymyxin B Sulphate with Neomycin and Hydrocortisone
Aerosporin	BW	Polymyxin B Sulphate
Akineton	KN	Biperiden
Albalon Liquifilm	AG	Naphazoline Hydrochloride
Albumaid XP	MN	Protein Hydrolysate Formula without Phenylalanine
Aldactone	SR	Spironolactone
Aldecin	SH	Beclomethasone Dipropionate
Aldomet	MK	Methyldopa
Aldomet-M	MK	Methyldopa
Alkeran	BW	Melphalan
Allegron	DL	Nortriptyline
Allercur	SC	Clemizole
Allergex	PT	Chlorpheniramine
Almacarb	AH	Aluminium Hydroxide and Magnesium Carbonate Co-Dried Gel
Alucone	DH	Aluminium Hydroxide with Magnesium Hydroxide
Aludrox	WY	Aluminium Hydroxide with Magnesium Hydroxide
Alupent	BY	Orciprenaline
Alusorb	DH	Aluminium Hydroxide
Ames-BG	AM	Glucose Indicator-Blood
Aminogran F.S.	GL	Amino Acid Formula without Phenylalanine
Aminogran M.M.	GL	Mineral Mixture
Aminopt	SI	Aminacrine Hydrochloride
Amitrip	PT	Amitriptyline
Amoxil	BR	Amoxycillin
Amphojel	WY	Aluminium Hydroxide
Amphotabs	WY	Aluminium Hydroxide Dried
Ampicyn	PT	Ampicillin
Amytal Sodium	LY	Amylobarbitone Sodium
Anapolon	SD	Oxymetholone
Anatensol	SQ	Fluphenazine
Anatensol Enanthate	SQ	Fluphenazine Enanthate
Ancolan	AH	Meclozine
Ancotil	RO	Flucytosine

Proprietary Name	Manufacturer	Name
Anginine Stabilised	BW	Glyceryl Trinitrate
Anovlar	SC	Norethisterone Acetate with Ethinyloestradiol
Antadine	EN	Amantadine Hydrochloride
Anti-Hist	PT	Diphenylpyraline
Anti-Naus	PT	Prochlorperazine
Antipres	PT	Guanethidine
Antipres M	PT	Guanethidine
Anti-Spas	PT	Benzhexol
Antistine Privine	ZY	Antazoline with Naphazoline
Anturan	CB	Sulphinpyrazone
Anusol	WW	Bismuth Subgallate
Apresoline	CB	Hydralazine Hydrochloride
Aprinox	BT	Bendrofluazide
Aprinox-M	BT	Bendrofluazide
Aptin	AP	Alprenolol
Aquacaine G	CS	Procaine Penicillin
Aquacaine G Fortified	CS	Procaine Penicillin Fortified
Aquacare H.P.	AG	Urea
Aquacillin	FA	Procaine Penicillin
Aquadrate	NW	Urea
Aquamox	LE	Quinethazone
Aralen	WL	Chloroquine
Arfonad	RO	Trimetaphan
Aristocort 0.02%	LE	Triamcinolone Acetonide
Aristocort 0.05%	LE	Triamcinolone Acetonide
Artane	LE	Benzhexol
Arterioflexin	PT	Clofibrate
Artosin	RC	Tolbutamide
Ascabiol	MB	Benzyl Benzoate
Ascorb "50"	PT	Ascorbic Acid
Aspalgin	FM	Codeine Phosphate with Aspirin
A.T. 10	WL	Dihydrotachysterol
Atrobel	FM	Belladonna Alkaloids
Atrobel FORTE	FM	Belladonna Alkaloids
Atromid-S	IC	Clofibrate
Atropt	SI	Atropine Sulphate
Aureomycin	LE	Chlortetracycline
Austramycin	CS	Tetracycline
Austramycin-V	CS	Tetracycline (Buffered)
Austrapen	CS	Ampicillin
Austrapen Forte	CS	Ampicillin
Austrastaph	CS	Cloxacillin
Avil	HP	Pheniramine
Avlosulfon	IC	Dapsone
Avomine	MB	Promethazine Theoclate
Azide	FM	Chlorothiazide
Bactrim	RO	Trimethoprim with Sulphamethoxazole
Bactrim DS	RO	Trimethoprim with Sulphamethoxazole
B.A.L.	BT	Dimercaprol
Banish	DY	Deodorant Concentrate (C & I)
Baycaron	BN	Mefruside
B.A.Z.	KL	Zinc and Adrenaline
Becotide	AH	Beclomethasone Dipropionate
Benadryl	PD	Diphenhydramine

Proprietary Name	Manufacturer	Name
Benemid	FR	Probenecid
Benzemul	MG	Benzyl Benzoate
Benzide	PT	Bendrofluazide
Benzide M	PT	Bendrofluazide
Benzotran	PT	Oxazepam
Berotec	BY	Fenoterol Hydrobromide
Betacard	BR	Alprenolol
Betaloc	AP	Metoprolol
Betamin	KL	Thiamine Hydrochloride
Betamin Forte	KL	Thiamine Hydrochloride
Beta Sol	FM	Thiamine Hydrochloride
Betnovate 1/5	GL	Betamethasone Valerate
Betnovate 1/2	GL	Betamethasone Valerate
Bicillin All Purpose	WY	Benzathine Penicillin Compound
Biogastrone	SN	Carbenoxolone Sodium
Biphasil 21	WY	Levonorgestrel with Ethinyloestradiol
Biphasil 28	WY	Levonorgestrel with Ethinyloestradiol
Bi-Prin	BT	Aspirin
Biquin	NN	Quinine Bisulphate
Bi-Quinate	KL	Quinine Bisulphate
Bitard	CS	Insulin Biphasic
Blenoxane	BC	Bleomycin
Bleph 10	AG	Sulphacetamide Sodium
Blocadren	FR	Timolol
BM-Test Glucose	BO	Glucose Indicator - Urine
BM-Test-Glycemic	BO	Glucose Indicator - Blood
Bramahist	MF	Chlorpheniramine
Bramcetamol	MF	Paracetamol
Bramcycline	MF	Oxytetracycline
Brevinor	SD	Norethisterone with Ethinyloestradiol
Brevinor-1	SD	Norethisterone with Ethinyloestradiol
Bricanyl	AP	Terbutaline Sulphate
Brinaldix	SZ	Clopamide
Brondecon	WW	Choline Theophyllinate with Guaiphenesin
Bronkephrine	WL	Ethylnoradrenaline
Brufen	BT	Ibuprofen
Bufferin	BC	Aspirin (Buffered)
Bufferin 500	BC	Aspirin (Buffered)
Buscopan	BY	Hyoscine Butylbromide
Butacal	LF	Phenylbutazone
Butalgin	FM	Phenylbutazone
Butazolidin	GE	Phenylbutazone
Butazone	PT	Phenylbutazone
Buzon	KL	Phenylbutazone
Cafergot	SZ	Ergotamine Tartrate with Caffeine
Cafergot PB	SZ	Ergotamine Tartrate with Caffeine
Calciparine	DF	Heparin Calcium
Calcium Disodium Versenate	RK	Sodium Calciumedetate
Calcium Sandoz	SZ	Calcium Gluconate
Calmazine	PT	Trifluoperazine
Calmurid	PS	Urea
Camcolit	NE	Lithium Carbonate
Camquin	PD	Amodiaquine

Proprietary Name	Manu- fac- turer	Name
Campholinct	DH	Camphor Compound
Canesten	BN	Clotrimazole
Caprin	CS	Heparin Calcium
Caprocin	LY	Capreomycin
Captol	PT	Oxprenolol
Capurate-100	FM	Allopurinol
Capurate-300	FM	Allopurinol
Carbapen	CS	Carbenicillin
Carbolith	DH	Lithium Carbonate
Cardinol	PT	Propranolol
Cardiox	NN	Digoxin
Cardophyllin	HA	Aminophylline
Cardoquin	NN	Quinidine Sulphate
Carine	KL	Aminophylline
Catapres	BY	Clonidine
Ceetamol	PT	Paracetamol
Celestone	SH	Betamethasone
Celestone	SH	Betamethasone
Chronodose		
Celestone-M	SH	Betamethasone Valerate
Celestone-V	SH	Betamethasone Valerate
Half Strength		
Celontin	PD	Methsuximide
Ceporacin	GL	Cephalothin Sodium
Ceporan	GL	Cephaloridine
Cerubidin	MB	Daunorubicin
Char-Bons	LF	Charcoal, Activated (C & I)
Chlomin	KL	Chloramphenicol
Chloradorm	KL	Chloral Hydrate
Chloralix	RK	Chloral Hydrate
Chloramin	LF	Chlorpheniramine
Chloromycetin	PD	Chloramphenicol
Chloromycetin	PD	Chloramphenicol
Palmitate		
Chloromycetin	PD	Chloramphenicol
Succinate		
Chloromyxin	PD	Chloramphenicol with Polymyxin B
Chloroptic	AG	Chloramphenicol
Chlorquin	PT	Chloroquine
Chlorsig	SI	Chloramphenicol
Chlorvescent	PT	Potassium Chloride
Choledyl	WW	Choline Theophyllinate
Chlotride	FR	Chlorothiazide
Cidomycin	RL	Gentamicin Sulphate
Cilicaine	SI	Procaine Penicillin
Cilicaine V	SI	Phenoxymethylpenicillin
Cilicaine VK	SI	Phenoxymethylpenicillin
Citralka	PD	Sodium Acid Citrate
Citravescent	PT	Sodium Citro-Tartrate
Clinistix	AM	Glucose Indicator - Urine
Clinitest	AM	Copper Sulphate
Clinoril	FR	Sulindac
Codalgin	FM	Codeine Phosphate with Paracetamol
Codelcortone	MK	Prednisolone Tertiarybutylacetate
T.B.A.		
Codelix	DH	Codeine

Proprietary Name	Manufacturer	Name
Codelsol	MK	Prednisolone Sodium Phosphate
Codral Forte	BW	Codeine Phosphate with Aspirin and Paracetamol
Cogentin	MK	Benzotropine
Colcin	KL	Colchicine
Colestid	UP	Colestipol Hydrochloride
Colgout	PT	Colchicine
Colly-seels	DY	Sterculia (C & I)
Coloplast	ST	Sterculia (C & I)
Coloxyl	FM	Diocetyl Sodium Sulphosuccinate with Bisacodyl
Coloxyl 50	FM	Diocetyl Sodium Sulphosuccinate
Coloxyl 120	FM	Diocetyl Sodium Sulphosuccinate
Coloxyl with Danthron	FM	Diocetyl Sodium Sulphosuccinate with Danthron
Coluric	NN	Colchicine
Coly-Mycin Injection	WW	Colistin
Coly-Mycin Ear Drops	WW	Colistin with Neomycin
Compazine	SK	Prochlorperazine
Compenase	CS	Penicillinase
Comycin	UP	Tetracycline with Nystatin
Concordin	MK	Protriptyline
Conovid-E	SR	Norethynodrel with Mestranol
Convuline	PT	Carbamazepine
Cortate	PT	Cortisone Acetate
Cortef	UP	Hydrocortisone
Cortril	PF	Hydrocortisone
Cotazym	OR	Pancrelipase
Coumadin	EN	Warfarin
Crystapen	GL	Benzylpenicillin
Cuprimine	MK	Penicillamine
Cyclidox	PT	Doxycycline
Cytamen 100	GL	Cyanocobalamin
Cytamen 1000	GL	Cyanocobalamin
Cytosar-U	UP	Cytarabine
Daktarin	JP	Miconazole Nitrate
Dalacin C	UP	Clindamycin
Danocrine	WL	Danazol
Daonil	HP	Glibenclamide
Daranide	MK	Dichlorphenamide
Daraprim	BW	Pyrimethamine
Dartalan	SR	Thiopropazate
Debendox	ML	Dicyclomine with Doxylamine and Pyridoxine
Decadron	MK	Dexamethasone
Decadron Shock Pak	MK	Dexamethasone
Deca-Durabolin	OR	Nandrolone Decanoate
Declinax	RO	Debrisoquine
De-Lact Infant	SJ	Milk Powder - Cows' Milk, Processed
Delta-Cortef	UP	Prednisolone
Deltasolone	KL	Prednisolone
Deltasone	KL	Prednisone
De-Nol	GB	Tri-potassium Di-citrate Bismuthate Complex
Depo-Medrol	UP	Methylprednisolone Acetate
Depo-Provera	UP	Medroxyprogesterone
Dermabase S	HA	Dimethicone

Proprietary Name	Manufacturer	Name
Dermacort	PD	Hydrocortisone
Dermacort "0"	PD	Hydrocortisone
Deseril	SZ	Methysergide
Dexacillin	SQ	Epicillin
Dex-Cit	RC	Sodium Citro-Tartrate
Dexamethsone	PT	Dexamethasone
Diabex S.R.	DF	Metformin
Diabinese	PF	Chlorpropamide
Di-Ademil	SQ	Hydroflumethiazide
Diamicron	SE	Gliclazide
Diamox	LE	Acetazolamide
Dianabol	CB	Methandienone
Diasol	AB	Peritoneal Dialysis Solution
Diastatin	GP	Nystatin
Diastix	AM	Glucose Indicator - Urine
Diatol	PT	Tolbutamide
Dibenyline	SK	Phenoxybenzamine
Dichlotride	MK	Hydrochlorothiazide
Digestelact	SJ	Milk Powder - Cows' Milk, Processed
Dihydroergot	SZ	Dihydroergotamine
Dijene	BT	Aluminium Hydroxide with Magnesium Hydroxide
Suspension		
Dijene Tablet	BT	Aluminium Hydroxide and Magnesium Carbonate Co-Dried Gel
Dilantin	PD	Phenytoin
Dilantin Infatabs	PD	Phenytoin
Dilantin Sodium	PD	Phenytoin Sodium
Dilosyn	AH	Methdilazine
Dimal	PT	Methyldopa
Dimetare	RS	Brompheniramine
Dindevan	GL	Phenindione
Diprosone	SH	Betamethasone Dipropionate
Disipal	RK	Orphenadrine Hydrochloride
Diubram	MF	Chlorothiazide
Diulo	SR	Metolazone
Diuret	PT	Chlorothiazide
Diurone	KL	Chlorothiazide
Doburil	BY	Cyclothiazide
Donnatab	RS	Belladonna Alkaloids
Dormel	DH	Chloral Hydrate
Dormicum	PT	Nitrazepam
Doxin	GP	Doxycycline
D-Penamine	DL	Penicillamine
Ducene	SU	Diazepam
Duoluton	SC	Norgestrel with Ethinyloestradiol
Duphalac	ET	Lactulose
Duphaston	ET	Dydrogesterone
Durabolin	OR	Nandrolone Phenylpropionate
Durolax	BY	Bisacodyl
Duro-Tuss	RK	Pholcodine
Dyazide	SK	Hydrochlorothiazide with Triamterene
Dymadon	BW	Paracetamol
Dymadon Co.	BW	Codeine Phosphate with Paracetamol
Dytac	SK	Triamterene
E-Carpine	AQ	Pilocarpine Hydrochloride with Adrenaline
Ecostatin	SQ	Econazole Nitrate

Proprietary Name	Manu- fac- turer	Name
Ecotrin	SK	Aspirin
Edecril	MK	Ethacrynic Acid
EES 200	AB	Erythromycin
Efcortelan	GL	Hydrocortisone Sodium Succinate
Ekaprol	DF	Aminocaproic Acid
Elavil	FR	Amitriptyline
Elix-Nocte Forte	NN	Chloral Hydrate
Elixophyllin	SC	Theophylline
Elixophyllin-KI	SC	Theophylline with Potassium Iodide
Emsalin	DH	Methyl Salicylate
EMU-V	UP	Erythromycin
E-Mycin	PT	Erythromycin
Endone	EN	Oxycodone Hydrochloride
Endoxan-Asta	BC	Cyclophosphamide
Enduron	AB	Methyclothiazide
Enduron M	AB	Methyclothiazide
Ensalate	RC	Sodium Salicylate
Epifrin	AG	Adrenaline
Epilim	RC	Sodium Valproate
Epilim EC	RC	Sodium Valproate
Epinal	AQ	Adrenaline
Eppy/N	BF	Adrenaline
Ergodryl	PD	Ergotamine Tartrate with Caffeine Citrate and Diphenhydramine Hydrochloride
Ergotrate	LY	Ergometrine Maleate
Eromycin	DL	Erythromycin
Erostin	MF	Erythromycin
Eryc	FA	Erythromycin
Erythrocin	AB	Erythromycin
Esbatal	BW	Bethanidine
Esidrex	CB	Hydrochlorothiazide
Eskacef	SK	Cephadrine
Estigyn	AH	Ethinylloestradiol
Estradurin	AY	Polyestradiol
Etaphylline	DF	Acepifylline
Ethamolin	GL	Ethanolamine Oleate
Ethryn	FA	Erythromycin
Eucerin	SN	Wool Alcohols
Euglucon	RC	Glibenclamide
Eugynon	SC	Norgestrel with Ethinylloestradiol
Eugynon-ED	SC	Norgestrel with Ethinylloestradiol
Euhypnos	SI	Temazepam
Eumydrin	WL	Atropine Methonitrate
Fabahistin	BN	Mebhydrolin
Falcopen V	FA	Phenoxymethylpenicillin
Falcopen VK	FA	Phenoxymethylpenicillin
Fansidar	RO	Pyrimethamine with Sulfadoxine
Fasigyn	PF	Tinidazole
Fefol 2	SK	Ferrous Sulphate Dried with Folic Acid
Fenamine	FM	Pheniramine
Fenamine-M	FM	Pheniramine
Fenostil	ZY	Dimethindene
Fergon	WL	Ferrous Gluconate
Feritard	PT	Ferrous Sulphate Dried
Feritard Folic	PT	Ferrous Sulphate Dried with Folic Acid

Proprietary Name	Manu- fac- turer	Name
Ferro-Gradumets	AB	Ferrous Sulphate Dried
Ferrum H	SI	Iron Polymaltose Complex
Fespan	SK	Ferrous Sulphate Dried
F.G.F.	AB	Ferrous Sulphate Dried with Folic Acid
Flagyl	MB	Metronidazole
Floraquin	SR	Di-iodohydroxyquinoline
Florinef	SQ	Fludrocortisone Acetate
FML Liquifilm	AG	Fluorometholone
Folasic	NN	Folic Acid
Folettes	FM	Folic Acid
Fortral	WL	Pentazocine
Fucidin	SK	Fusidic Acid
Fulcin 125	IC	Griseofulvin
Fulcin 500	IC	Griseofulvin
Fumiron	KL	Ferrous Fumarate
Fungilin	SQ	Amphotericin
Fungizone	SQ	Amphotericin
Furadantin	NW	Nitrofurantoin
Furamide	BT	Diloxanide Furoate
Galactomin	MN	Milk Powder - Synthetic
Formula 17		
Galactomin	MN	Milk Powder - Synthetic
Formula 19		
Gantanol	RO	Sulphamethoxazole
Gantrisin	RO	Sulphafurazole
Garamycin	SH	Gentamicin Sulphate
Gastrogel	FM	Aluminium Hydroxide with Magnesium Trisilicate and Magnesium Hydroxide
Gelox	PR	Aluminium Hydroxide
Gelusil	WW	Aluminium Hydroxide with Magnesium Hydroxide
Glaucon	AQ	Adrenaline
Glucophage	RN	Metformin
Glucose	MJ	Nutramigen
Nutramigen		
Glyfosolix	DH	Glycerophosphate Compound
Gold-50	SH	Aurothioglucose
Gondafon	SC	Glymidine
Griseostatin	SH	Griseofulvin
Grisovin	GL	Griseofulvin
Grisovin 500	GL	Griseofulvin
Gyno-Daktarin 7	JP	Miconazole Nitrate
Gynovlar	SC	Norethisterone Acetate with Ethinyloestradiol
Halotestin	UP	Fluoxymesterone
Hemineurin	AP	Chlormethiazole
Hemorex	WL	Phenylephrine
Herplex	AG	Idoxuridine
Hibitane	IC	Chlorhexidine
Concentrate		
Hiprex	RK	Hexamine Hippurate
Histalert	RK	Diphenylpyraline
Histryl-P	SK	Diphenylpyraline
HMS Liquifilm	AG	Medrysone
Honvan	BC	Fosfestrol Tetrasodium

Proprietary Name	Manu- fac- turer	Name
Hostacycline P	HP	Tetracycline (Buffered)
Hyalase	FC	Hyaluronidase
Hycor	SI	Hydrocortisone
Hydracycline	FM	Tetracycline (Buffered)
Hydracycline Plain	FM	Tetracycline
Hydrea	SQ	Hydroxyurea
Hydrenox	BT	Hydroflumethiazide
Hydrosone	KL	Hydrocortisone
Hygroton	GE	Chlorthalidone
Hyperstat I.V.	SH	Diazoxide
Hypurin Isophane	WP	Insulin Isophane (N.P.H.)
Hypurin Neutral	WP	Insulin Neutral
Hysone-A	PT	Hydrocortisone Acetate
Ilocap	LY	Erythromycin
Ilosone	LY	Erythromycin
Ilotycin	LY	Erythromycin
Imferon	FC	Iron Dextran
Imiprin	PT	Imipramine
Imodium	JP	Loperamide Hydrochloride
Imuran	BW	Azathioprine
Inderal	IC	Propranolol
Indocid	MK	Indomethacin
Inflam	PT	Ibuprofen
Insulatard Nordisk	PT	Insulin Isophane (N.P.H.)
Intal	FC	Sodium Cromoglycate
Intal Spincaps	FC	Sodium Cromoglycate
Invite-B	NN	Thiamine Hydrochloride
Iramil	KL	Imipramine
Ismelin	CB	Guanethidine
Isonil	RD	Soya Formula
Isoptin	KN	Verapamil Hydrochloride
Isopto Carpine	AQ	Pilocarpine Hydrochloride
Isopto Cetamide	AQ	Sulphacetamide Sodium
Isopto Frin	AQ	Phenylephrine
Isopto Tears	AQ	Hypromellose
Isordil	AY	Sorbide Nitrate
Isordil Sublingual	AY	Sorbide Nitrate
Isotard	CS	Insulin Isophane (N.P.H.)
Isotard PC	CS	Insulin Isophane (N.P.H.)
Isotrate	PD	Sorbide Nitrate
Isotrate Sublingual	PD	Sorbide Nitrate
Isuprel	WL	Isoprenaline Hydrochloride
Jectofer	AP	Iron Sorbitol
Kabikinase	FA	Streptokinase
Kanasig	SI	Kanamycin
Kantrex	BC	Kanamycin
Kaogel	FA	Aluminium Hydroxide with Kaolin
Kaomagma	WY	Aluminium Hydroxide with Kaolin
Kaopectate	UP	Kaolin with Pectin
Karaya Paste	HO	Sterculia (C & I)
Kay Ciel	SC	Potassium Chloride
Keflex	LY	Cephalexin
Keflin Neutral	LY	Cephalothin Sodium

Proprietary Name	Manu- fac- turer	Name
Kefzol	LY	Cephazolin Sodium
Kemadrin	BW	Procyclidine
Kenacomb Otic	SQ	Triamcinolone Acetonide with Neomycin Sulphate, Gramicidin and Nystatin
Kenacort-A10	SQ	Triamcinolone Acetonide
Kenalone	SQ	Triamcinolone Acetonide
Kenalone 0.02%	SQ	Triamcinolone Acetonide
Keto-Diastix	AM	Glucose and Ketone Indicator - Urine
Ketovite	ST	Vitamin Supplement
Kinidin	AP	Quinidine Bisulphate
Klortee	PT	Chloramine (C & I)
Kolpon	OR	Oestrone
Konakion	RO	Phytomenadione
K-San	PR	Potassium Chloride
Lacril	AG	Hypromellose
Langesic	BT	Paracetamol
Lanoxin	BW	Digoxin
Lanoxin-PG	BW	Digoxin
Lanvis	BW	Thioguanine
Largactil	MB	Chlorpromazine
Larodopa	RO	Levodopa
Laroxyl	RO	Amitriptyline
Lasix	HP	Fruzemide
Lasix-M	HP	Fruzemide
Lente M.C. Novo	NO	Insulin Zinc Suspension
Lente PC	CS	Insulin Zinc Suspension
Lethidrone	BW	Nalorphine
Leucovorin	LE	Calcium Folate
Leukeran	BW	Chlorambucil
Lincocin	UP	Lincomycin
Lincocin SS	UP	Lincomycin
Paediatric		
Lingraine	WL	Ergotamine Tartrate
Lioresal	CB	Baclofen
Liquidoplast	PT	Acrylic Resin (C & I)
Liquifilm Tears	AG	Polyvinyl Alcohol
Lithicarb	PT	Lithium Carbonate
Locacorten	CB	Flumethasone with Clioquinol
Vioform		
Locasol	MN	Milk Powder - Synthetic
Lofenalac	MJ	Phenylalanine Low Content Formula
Lomodex	FC	Dextran 40
Lomotil	SR	Diphenoxylate Hydrochloride with Atropine Sulphate
Lopresor	GE	Metoprolol
Lorexane	IC	Gamma Benzene Hexachloride
Lorexane Concentrate	IC	Gamma Benzene Hexachloride
L.P.G.	CS	Benzathine Penicillin
L.P.V.	CS	Phenoxymethylpenicillin
L.P.V. Aqueous Forte	CS	Phenoxymethylpenicillin
Lysapfen	PT	Difenoxin Hydrochloride with Atropine Sulphate

Proprietary Name	Manu- fac- turer	Name
M & B 693	MB	Sulphapyridine
Maalox	BT	Magnesium-Aluminium Hydroxide
Macrochantin	NW	Nitrofurantoin
Macrodex	PS	Dextran 70
Madopar	RO	Levodopa with Benserazide
Madopar-M	RO	Levodopa with Benserazide
Magnoplasm	FA	Magnesium Sulphate
Maloprim	BW	Pyrimethamine with Dapsone
